A Great Victory

The British and Canadian forces in France captured 9,000 prisoners in the great drive on Sunday and Monday. Word to that effect was wired here on Tuesday. This is just a foretaste of what is coming to the mad dog's whelps on the western battle front.

Seed Time Suggestions

1 Carefully plan the crop production for the season at an early date.

2 Thoroughly clean and grade the grain so as to procure the large, plump, sound and well matured seed.

3 Test the germination power and the vigor of the seed before time to sow.

4 Overhaul implements and machines so as to be ready to start seeding early and to have each class of crop at the best time for highest results.

5 Arrange for at least a small amount of such cultivated crops as beans, corn, potatoes and turnips.

6 Watch and destroy the weeds before they are able to moke much headway.

7 Economize man labor by using three and four horse teams when possible.

8 Plan so as to make the best use of the unskilled labor which is available.

But David Coates of Brant sold a hog to Bruder Bros. in Walkerton on Tuesday that kicked the beam to 680 pounds and brought the seller an even $90. From the comparison, we infer that there are bigger hogs in Brant than Guelph.

Judging from the number of marriages that have taken place from time to time among the young ladies from the local telephone central, that establishment seems to have a peculiar interest to cupid. No lady has, to our knowledge graduated from that institution and joined, the Sacred and Advanced Order of Predestinated Spinsters. As a place for stepping off into a happy home we don't know any institution that has anything on a Bell Telephone Central.—Herald and Times.
