Mrs. Mary Bluhm of the 4th Con. of Sullivan lost her barn and contents by fire. Lightning struck the barn and in less than three minutes the structure, which contained this season's crop, was in flames. Fred Bluhm rushed to the barn immediately he saw it was struck and managed to save thirteen pigs. Everything else, including the season's grain crop, binder, mower and seed drill, sleigh, democrat, buggy, harness and over 100 hens, were burned, Apparently the gases in the barn exploded, as when Mr. Bluhm got to the barn the partitions in the horse stable were down and sheeting from the roof and walls of the barn were found across the river, thirty yards distant, untouched by fire. Nine panes of glass were broken in the house at the time the barn was struck. The loss will be in the neighborhood of $4000, partly covered by $2100 insurance.

England is using up 4400 tons of grain daily in the manufacture of beer, whiskey etc. Why don't she cut this out during the war? What right has she to dictate to us about food economy when she is so extravagant! France abolished strong drink, so did Russia, also the United States. If England is called the Mother of nations why don't she act the part? Our own Dominion Government should have passed a radical temperance measure to last as long as the war, at least.

Mr. and Mrs. Henry Hurd, who have been visiting friends in Detroit, returned home recently. We are pleased to see the worthy couple again in our midst.

Recently he missed the sow and after instituting a search found her in a fence corner alongside the bush in the shelter of a tree feeding a family of 14 young pigs.
