Clear telephone lines for

ALL-OUT PRODUCTION

Your telephone is part of a vast *interlocking* system now carrying an abnormal wartime load. Don't let needless delays hold up messages on which production efficiency may depend.

OTHER "WARTIME TELEPHONE TACTICS"

1. BE SURE you have the right number . . . consult the directory.
2. SPEAK distinctly, directly into the mouthpiece.
3. ANSWER promptly when the bell rings.
4. BE BRIEF. Clear your line for the next call.

These things may look trifling, but on 6,500,000 daily telephone calls, they are very important.
