Artemesia Council

Artemesia Council met on Oct. 6. The members were all present, the Reeve in the chair. Minutes of last meeting were read and confirmed. Communications were received from J. T. Jamieson,claim for sheep killed, certified by R. Plantt ; Alex. Whyte, claim for sheep killed, certified by M. L. McIntyre ; P. McCullough, acting for C. Akins, claiming $40 on account of alleged defective culvert on Toronto line ; the British Red Cross, asking for assistance to the funds of the same, and the Navy League asking for a grant ; J. Burnett, report of special work on South line ; the Reeve, report of work on Morey creek bridge, valley road.

Cameron—Mathewson—That the report of Mr. Burnett on expenditure on South line in Div. 1, showing expenditure of $4.25, be received, and he be paid $6.25 for 2½ days overseeing same, and the Reeve be paid $2.50 for one day committee on same work—Carried.

Cameron — Mathewson — That the Reeve's report of special work at Morey creek bridge, valley road, showing expehditure of $51 for timber and work, be received and he be paid $5.10 commission on same—Carried.

Burnett—Mathewson — That gravel accounts as follows be paid : W. J. McMillan $4.70, A. Blackburn $8.90—Carried.

Cameron—Stinson—That Fred Jamieson be paid $12 for sheep killed by dogs, certified by Inspector R. Plantt, and Mr. Plantt be paid $8 for services as inspector to date—Carried.

Burnett—Mathewson — That Alex. Whyte be paid $11 for sheep killed by dogs, the claim being certified by M. L. McIntyre, inspector—Carried.

Cameron—Stinson—That this Council grant $400 to the British Red Cross and $100 to the British Sailors' Relief fund, and the Clerk be authorized to receive private contributions from any person desiring to subscribe to either or both of the said funds or any other patriotic object—Carried.

Council adjourned.

At Acton bread is down to 18 cents for a large loaf.

On a charge of cruelty to animals, Thomas Gibson, a North Luther farmer, was assessed $10 and costs by Magistrates Kirby and Blair in the Arthur police court. Gibson, it seems, had had a sheep killed by dogs, and wishing to catch the offending canine, set a bear trap. Early one morning shortly afterwards he found a dog caught in the trap. He sent for Wm. Legate, who identified the dog as belonging to him and asked for his release from the trap. This Gibson refused until Legate settled for the loss of the sheep. Gibson then sent for the township sheep valuators, leaving the dog in the trap. However, these officials did not appear,and in the evening Gibson released the dog, after he had been held in the trap all through the day and a part of the preceding night. Legate entered a charge of cruelty to animals in the Arthur police court, with the result that Gibson was fined as above stated—Arthur Enterprise.

AIMING A BIG GUN.

A Task In Which Figure Chemistry, Mathematics and Physics.

Today there is about as much difference between aiming a big gun and aiming a rifle as there is between sailing a superdreadnaught and sailing a steam yacht. It was not very long ago, however, that a gun was aimed similarly to a rifle in that the direction in which it was pointed was obtained by sighting along its barrel.

But now things are not done that way. The gunners are often far out of sight of what they are shooting at, and the remarkable hits that they make are only explained by the use they make of careful scientific calculations.

To direct the fire of one of the bigger guns, for example, requires that no less than fifteen complicated corrections be made, says Popular Science Monthly. Each correction requires an average of five adjustments, all of which must first be exactly figured out by those in command. The most important corrections which are made are for the influence of the resistance of the air, the influence of the earth's curvature and the attraction of gravity on the distance the bullet may be carried.

In place of the guesswork of previous times is the use of the most advanced developments in the fields of mathematics, physics and chemistry.

HAITI CLEANS HOUSE.

Changes That Were Brought About by the American Occupation.

Five years ago in Haiti there was on the whole island not more than one mile of macadamized roadway, and the new streets, taking the place of combination trails and sewers, are the most noticeable changes brought about by the American occupation.

But more remarkable than the streets is the astonishing sight of squads of Haitians actually cleaning the streets. Under the old regime the chief occupations of the male citizens of Haiti were cockfighting and politics.

The refuse and smells have departed, and, better still, most of the children have disappeared from the streets. They are actually at school, where by Haitian law they are supposed to be, but where by Haitian lawlessness only about 10 per cent of them ever used to be.

About 4 o'clock every week day you will see this newly mobilized infantry coming home in squads clean and, unfortunately for the picturesque value of Haitian highways and byways, now thoroughly provided with clothes.

Humor Found Everywhere.

Among those pre-eminently gifted with humor were Abraham Lincoln, Disraeli, Goethe and Heine, the late Lord Salisbury, Arthur Balfour, Dickens, Thackeray, Fielding, Shakespeare, Queen Elizabeth, Henry VIII., Charles II., Dr. Johnson, Charles Lamb, Emerson and Byron. The only persons who lack it altogether are madmen. Criminals as a whole are never without it. There is the case of one murderer at the bar in London who on being asked if there were any reason why sentence of death should not be passed upon him replied, "No; I am disgusted with the whole proceedings." Another in a similar situation on being asked whether he had a last request to make said, "Well, I should like to learn to play the piano."—Sir Herbert Beerbohm Tree.
