CREAM Production Greater

Despite the act that the provincial figures on butter production for this year, to date, show a decrease as compared to last year's figures, and the fact that a considerable number of cows have been eliminated in this section through the the T.B. test—OUR BUTTER PRODUCTION IS HIGHER TO DATE THAN IN 1941. For this we are thankful to our patrons. We say: "Keep up te good work."

MEAT LOCKERS

The rumours regarding the rationing of meat for placing in lockers are groundless. Continue to put in your usual supply while space is available.

GOVERNMENT INSURANCE
IN CASE OF
WAR DAMAGE TO PROPERTY
OWNERS OF PROPERTY ARE URGED TO INSURE AGAINST LOSS BY ENEMY ACTION

The Government of Canada, by Act of Parliament, has set up a Plan of War Risk Insurance against damage to property caused by enemy action—by countermeasures taken against the enemy—by explosions of war munitions handled by third parties.

In terms of general information, it may be stated that the Plan provides a certain limited FREE COMPENSATION for damage to owner-occupied homes and to chattels, but the main feature of the Plan is that owners of most types of property can protect their property by PURCHASE of GOVERNMENT WAR RISK INSURANCE at very moderate rates.

This type of War Risk Insurance is not being sold today by private insurance companies, because of the risk involved. Consequently, the Government has established a national scheme to make it possible for each citizen in Canada to purchase the sense of security that comes from knowing that if his property does suffer war damage (and the war has come much closer to Canada in the last twelve months) he can call on the resources of Canada to help him make good his property loss.

HOW TO OBTAIN GOVERNMENT WAR RISK INSURANCE

The Fire Insurance Agents and Companies of Canada have volunteered to the Government the services of their extensive facilities and personnel, on a non-profit basis, thus avoiding the setting up of the large organization that otherwise would be needed to handle details of this nation-wide Government War Risk Insurance scheme.

YOUR FIRE INSURANCE AGENT OR COMPANY WILL GLADLY SUPPLY COMPLETE DETAILS OF THIS GOVERNMENT INSURANCE PLAN.

THIS ANNOUNCEMENT IS PUBLISHED so that the public may have notice of the Government War Risk Insurance Scheme. The information given above is not intended to be a complete resumé of the Scheme. Full information regarding conditions, exclusions, etc., is available elsewhere.

TO HOME OWNERS HOUSEHOLDERS and OTHERS

Limited free compensation is provided under the Act for War Damage by enemy action to owner-occupied homes up to $3,000. Damage to Householder's Chattels, up to $800—for those of his wife, up to $400—for each child under 16, up to $100—for others, not householders, up to $200.

No policies are needed in this classification but insurance additional to the above amounts may be purchased.

Ask any Fire Insurance Agent or Company for complete details.

Use of Leisure

I think it is almost as important that people should make as good use of periods of leisure as of hours of labor. The period of leisure is becoming ever more inportant now that it is better assured than it was a generation ago. One of the first essentials to the enjoyment of leisure is that it should have been preceded by a period of work.

I am sure there is not one of the idle rich who really enjoys as much as the man who has worked before he enjoyed his leisure. The man who knows how to spend his leisure in the way which he will really enjoy is going to work all the better for having the prospect of leisure before him. The best use of leisure is change of occupation, and doing things you really enjoy. That is more lasting pleasure than any form of entertainment.

A prominent man, in an interview, was asked to give a definition of an expert. His answer was succinct and definite:

"An expert is one who can complicate simplicity."
