Mr. Finch of Brantford has been here for the past week or two preparing to start drilling operations on the Cox well, which was temporarily abandoned last fall after getting down somewhere about 1700 feet. Mr. Finch says there is considerable oil in the well even now, and he has great confidence in the prospects.

James Bowes, a pioneer resident of St Vincent, and father of Mrs. John Heard of Flesherton. died on Monday night of last week, aged 78 years. Mr. Bowes was well known here, having been a frequent guest of his daughter. He served his township for many years as Councillor and Reeve and in 1896 contested to riding with the late Dr. Sproule in the interest of the Patron movement, but was defeated. He was a staunch Methodist. Wm. Bowes, Markdale, Mrs. W. McLoughry and Mrs. D. Foster of Artemesia, are children of deceased.

The undersigned is loading a car of potatoes at Ceylon on Thursday and Friday of shis week, May 16 and 17. Phone A. Muir for prices.—Clarence Muir, shipper.

After many years' service on the 'bus line from this village to the station Mr. Will Field has severed his connection therewith and goes to Toronto in an attempt to better his financial condition. Mr. Moore, the proprietor, has ordered a new motor passenger and freight car, which he will put on the route about June first.

A memorial service was held in the Baptist church on Wednesday evening of last week, for the late Pte. Charles Meggot, who died in England of measles and pneumonia. The sermon was preached by Rev. Mr. McDonald of Toronto, a former pastor here. The lesson was read by Rev. Belfry from Genesis, the fourteenth chapter. The sermon was an exhaltation of Jesus Christ, showing that He was the only one who could give comfort and relief in time of sorrow. The church was crowded to the doors.

Owing to the difficulty caused by some schools continuing to run on old time, Inspector Craig of South Wellington wrote to the Department for advice. He was told that there was only one time now, that set by the Government, and schools must open and close according to this time. There is only one exception, and that is where trustees have the power to shorten the school hours so that schools may be dismissed before 4 o'clock government time. Where the new time is not observed, teachers and trustees may be held liable for infraction of the school law. Those who have changed their clock to the government time are experiencing very little difficulty.

Sister Wins Estate

On Friday R. J. Dodds of Toronto failed in his efforts before Judge Fisher here to have the Toronto General Trust Co. appointed administrator of the estate of the late Robert Gordon of Shelburne, who died on March 29 last, unmarried and without a will, leaving an estate of $16,123.17, consisting of personal estate and effects valued at $12,324 17 and real estate valued at $4800. In the absence of a will application was made for letters of administration by Mary Ann Gordon of Shelburne, an unmarried sister, who lived with and kept house for her brother up to the time of his death. Miss Gordon had behind her the renunciation in her favor of the majority of the persons interested in the estate. The application was, however, opposed by Robert James Dodds, real estate agent of Toronto, formerly of Orangeville a son of Mrs. Alice Dodds, another sister of deceased. Dodds claimed that he was acting as next friend for their mother, who was represented as being old, feeble and incapable of doing business. He based his opposition on the allegation that Miss Gordon, who is applying for letters of administration, was mentally incapacitated and therefore not a fit person to be appointed administrator.

The heirs to the property are Alex. Gordon of Shelburne and Mrs. Alice Dodds of Toronto, sisters; Wm. A. Gordon of Eugenia, a nephew; and Mrs. Archie McDonald and Mrs. Jas. Jamieson, in the west, nieces. The nephew and nieces are children of another brother.

After hearing all the evidence Judge Fisher found in favor of Miss Gordon and letters of admiuistration will be granted her.—Orangeville Sun.

They Shot the Well And it is Dry

The Midland gentlemen shot their oil well here on Thursday last at 11 p.m. with unsatisfactory results. Although the well, as stated last week, had shown considerable petroleum, the blast in the hole did not make any perceptible increase in the quantity of oil. This is discouraging to the gentlemen most deeply concerned, as well as to the general public, who had hoped that this well would be a producer, but we understand that the promoters are not altogether disheartened and will drill another well near the location of this one.

The act of shooting a well is an interesting one. While usually done with nitro-glycerine, ordinary 60 per cent. dynamite was used in this case. Altogether 500 pounds of the explosive were let off in the hole, the main charge consisting of 420 pounds. The dynamite was packed in tin cylinders four inches in diameter and five feet lsng. Some fifteen or sixteen of these cylinders were let down to the depth desired, one at a time, and exploded by a tin torpedo of dynamite with fuse attached, which was dropped down the hole. The noise of the explosion was heard in town as the stroke on a large drum at a distance, but scarcely made the windows in town rattle. Many did not even hear it. The depth at which the charge was fired—1400 feet—muffled the sound very effectually.

Something New, Something Helpful; The BH Color Scheme Adviser

WOULD you like to "see" your house in its new coat of paint, *before* you paint it? You can. The Brandram-Henderson "Color Scheme Adviser" enables you to try out different color combinations before deciding on the color scheme most pleasing to your eye.

This unique device consists of a transparent outline of a house, behind which you place color cards of every known shade—one color for the walls and another color for the roof. With the transparent sheet, there comes a set of 40 cards each of a different color. First you try a white card on the walls, in combination with a green card for the roof. Then you try a brown card behind the wall section of the transparency, along with a red card for the roof. And so on, until you have exhausted the possibilities of every known color combination.

We have one of these "Color Scheme Advisers" and will be pleased to let you experiment with it before you select your

B-H "ENGLISH" PAINT 70% Pure White Lead (Brandram's Genuine B.B.) 30% Pure White Zinc 100% Pure Paint

for the Spring painting of your house or any other building.

Of course you are going to paint this Spring—and equally, of course, you are going to use B-H "English" Paint—the paint with the guarantee behind it.

Our store is the B-H Store—which means that this is paint headquarters. The outstanding reputation of this brand is based on its superior covering-capacity and exceptional durability—both of which features we know to be due to the combination of Brandram's Genuine B.B. white lead and pure white zinc, which the makers of B-H "English" Paints maintain in spite of the repeated advances in the cost of these ingredients.
