It is Dog Wool Now

War is responsible for many new and unexpected industries, not the least of which is the manufacture of knitting wool from the combings of dogs. A few ladies conceived the idea from utilizing the combings in this way and after long and patient experimenting the process of spinning was perfected. Scientists have become interested in the discovery and a small room in the Albert and Victoria museum has been set aside for an exhibit of the work. Important propositions have come from the commercial world, which was quick to see the possibilities of this new industry, but, while the war lasts, there is no commercial side to the undertaking.

Long haired dogs furnish the material used, and wool of unusual silkiness and softness is spun from their combings. A pale gold sock, light as silk, but whose warmth is instantly realized when the sock is held against the cheek or hand, was knitted from the combings of a Pekingese. The whitest and softest of socks for the wounded come from the combings of a white poodle. Cardigans or hard wearing socks of soft grey are furnished by the old English sheep dog. Black as jet, stainless and glossy, is the wool given by the curly retriever.

Collies, cockers, Chows and Pomeranians, Barzois and Yorkshires, perky or dignified, all yield the most delightful wool. Lightness and softness and warmth are truly admirable qualities in wool, but this new kind possesses unheard of wearing qualities. Absolute proof of this is given in a grey cardigan which has been worn in the front line continuously since last autumn and washed repeatedly without showing the least sign of wear.

BY-LAW No. 3, 1918

Township of Euphrasia

A Bylaw of the Municipal Council of the Corporation of the Township of Euphrasia, to take the vote of the ratepayers of the Police Village of Kimberley in the said township, entitled to vote on money bylaws on a question to be submitted whether the said ratepayers are in favor of a supply of electric power from the Hydro-Electric Power Commission of Ontario.

WHEREAS the Municipal Council of the Corporation of the Township of Euphrasia deems it advisable to submit to the ratepayers of the said Police Village of Kimberley in the said Township of Euphrasia entitled to vote on money bylaws a question as to whether the said ratepayers are in favor of a supply of electric power from the Hydro-electric Power Commission of Ontario.

THEREFORE, the Council of the Corporation of the Township of Euphrasia enacts as follows :—

1—That the following questions be submitted to the ratepayers of the Police Village of Kimberley in the said Township of Euphrasia entitled to vote on money bylaws.—

"Are you in favor of obtaining from the Hydro Electric Commission of Ontario a supply of electric power ?"

2—That the vote of the said ratepayers shall be taken on the question at the following time and place by the Deputy Returning Officer and Poll Clerk hereinafter mentioned, that is to say on Saturday the 20th day of July, A.D.1918. commencing at the hour of nine o'clock in the forenoon and continuing open until five o'clock in the afternoon of the same day at the Public Hall in the said Village of Kimberley, by James R. Fawcett, Deputy Returning Officer, and James Lawrence, Poll Clerk.

3—A true copy of this Bylaw shall be published in the Markdale Standard newspaper on Thursday the Twentieth day of June, Thursday June 27, and Thursday July 4, 1918, respectively, and a copy of this Bylaw shall be posted at the polling place mentioned and at the Postoffice in the said Police Village of Kimberley.

4—On the fifteenth day of July, A. D. 1918, at the Clerk's office in the said Township of Euphrasia, at ten o'clock in the forenoon, the Reeve of the said Township will in writing signed by him, appoint two persons to attend to the final summing up of the votes by the Clerk of the said Corporation, and one person to attend at the polling place on behalf of the persons interested in and desirous of the answering in the affirmative and a like number on behalf of the persons desirous of answering the said question in the negative, respectively.

5—The 22nd day of July, A.D.1918 at the office of the said Clerk of the said Township of Euphrasia, is hereby appointed at ten o'clock in the forenoon for the summing up of the votes by the said Clerk, given in the affirmative and the negative respectively.

Made, passed and enacted at the Council Chamber in the Township of Euphrasia the 8th day of March, A.D. 1918.

JOHN MILLER, Reeve.
N. L CURRY, Clerk.

Take notice that the above is a true copy of a Bylaw passed by the Municipal Council of the Corporation of the Township of Euphrasia on the 8th day of March, A.D. 1918.

And further take notice that hour and day and place therein fixed for taking the votes of the electors the poll will be held.

First published the 27th day of June, A. D. 1918.

—N. L. CURRY,
Clerk of the Township of Euphrasia,

AROUND GREY COUNTY

Jas. Godfrey, of Chatsworth, died suddenly last week from heart failure. He was unmarried.

While a number of Meaford citizens were motoring to Alliston their car struck some freshly laid gravel and skidded throwing the occupants out. Nobody was seriously injured.

Two airplanes were in Dundalk recently.

Cadet J. F. Saunders was killed instantly at Camp Borden when his machine crashed to the ground. His home was in Durham.

Grey County had 14 fires in April.

Robert McKnight, Registrar for North Grey since 1876, died at his home in Owen Sound last week.

William Johnston of Derby, was badly hurt last week while helping at a barn raising. He fell to the ground, a distance of fourteen feet, striking head first and had his head and face badly cut.

Major W. A. Bishop, V.C., D.S.O., M.C., has been appointed to the British Air Board in London.

One of a span of driving horses belonging to W. E. Murphy was electrocuted in front of Storey's blacksmith shop at Alliston. The Hydro linemen were engaged in taking down the old lines, the wire of which was bare in places. One of the wires lay across a live service wire, also bare, and was grounded in a puddle of water in front of the blacksmith shop. Mr. Murphy drove up and was directing the team to the edge of the pavement at a walk. One of the team, a four year old mare, stepped into the water and dropped as though she had been shot in a vital spot.

Holstein Bull For Service

A thoroughbred Holstein bull for service on lots 183-184 S.W. T. & S.R., Artemesia; closely related to the world's champion 44-pound cow. Terms: $1.50 for grades, $5.00 for pure breds.

1 July 17 —GEO. MOORE & Son.

Notice to Creditors

In the matter of the Estate of John Coulthard, late of the Township of Osprey, in the County of Grey, farmer, deceased.

Notice is hereby given, pursuant to "The Trustee Act," and amendments thereto, that all creditors and others having claims against the estate of the said John Coulthard, who died on or about the Eighth day of April, A. D. 1918, are required on or before the Twentieth day of July, 1918, to send by post prepaid or deliver to Messrs. Wright, Telford & Barlow of the town of Owen Sound in the County of Grey, solicitors for Messrs. William H. Moore and Hugh S. Fenwick, the of the last Will and Testament Executors of the said deceased, their Christian and Surnames, addresses and descriptions, the full particulars of their claims, the statement of their accounts and the nature of the securities, if any, held by them.

And take notice that after such last mentioned date the said Executors will proceed to distribute the assets of the said deceased among the parties entitled thereto, having regard only to the claims of which they shall then have notice, and that the said Executors will not be liable for the said assets or any part thereof to any person or persons of whose claims notice shall not have been given by them at the time of such distribution.

Dated the 17th day of June, A.D. 1918

—WRIGHT, TELFORD & BARLOW
Owen Sound, Ont.

Solicitors for Wm. H. Moore and Hugh S. Fenwick, Executors of the Estate of John Coulthard, deceased.

The Imported Percheron Stallion NIGUOT

[4442]

Will make the season of 1918 as follows:

Monday afternoon to Munshaw House Flesherton until 8 o'clock Tuesday morning, then to his own stable the rest of the week.

Niguot is a dark grey, absolutely sound, with the best of breeding, and when matured will make a ton horse. Anyone wanting to use this breed should see him before breeding their mares. He is one of the best Percherons ever brought to this country.

Terms and Conditions—To insure a mare with foal, $15, payable Jan. 1st, 1919. Mares must be returned to this horse according to orders of the Manager or they will be held responsible for the full insurance price, whether with foal or not. Parties disposing of their mares before collecting time will be held responsible for insurance price. All accidents to mares or otherwise at risk of owner of mares.

Enrolment No. 4486. Passed in Form I as sound under the Stallion Enrolment Board.

PREVENT MILK SOURING

Production of First-Class Seed Potatoes Increases Yields.

Exercise Male Breeding Stock—The Bull, Stallion, Ram and Boar Must All Be Given Exercise If the Standard of the Herd Is to Be Maintained.

(Contributed by Ontario Department of Agriculture, Toronto.)

IT is one of the anomalies of life that the sources of our greatest pleasures and greatest means of good, may also be sources of life's greatest pains and most harm. Milk is a case in point. Milk is the best source of life's greatest need—proper and sufficient food. It may also be a cause of the destruction of life, because it may become the home or feeding ground of those death-dealing organisms which are now recognized as the cause of practically all deaths, except those due to accident or old age.

Fortunately we have discovered comparatively simple methods of combating the effects of what are called pathogenic (disease-producing) bacteria. These may be stated in a few short rules as follows:

1. Milk which is consumed in a raw condition must be drawn only from cows which are healthy.
2. As soon as the milk is drawn from the cow, it should be cooled to 50 degrees or lower, and be kept at that temperature until consumed.
3. All pails, strainers, dippers, milk bottles, pitchers, etc., which come in contact with the milk, must be thoroughly washed and preferably steamed, or be rinsed after washing in a chloride solution, which has been found to be one of the best germicides.
4. Milk should not be exposed to the air any longer than absolutely necessary, as this seeds the milk with a fresh lot of germs. This means the keeping of milk in a closed vessel and not in an open dish.
5. "Left over" milk from meals should not be put into the general supply, as this causes the whole lot to spoil.
6. "Left over" milk from the sick room should be pasteurized or destroyed, as it may spread disease.
7. Milk at all times and in all places should be kept "clean" and "cool."—Prof. H. H. Dean, Ontario Agricultural College.

Roguing Potatoes.

The average yield of potatoes per acre in the Province of Ontario for the past thirty-six years has been about 115 bushels. The yields vary greatly. In 1917 there were variations in Ontario from twenty-five or less up to seven hundred bushels per acre. People are realizing more and more that for high yields of potatoes conditions must be favorable. It is important to have good fertile soil well cultivated and to plant a liberal supply of seed of the best varieties at the proper time. Seed potatoes somewhat immature which have been produced in a cool climate, and which are comparatively free from disease, are apt to furnish seed of high quality. Even under these conditions it is well to carefully inspect the seed before planting and to thoroughly rogue the growing crop.

A potato field is rogued by removing the undesirable plants. A thorough roguing of the growing crop once or twice during the summer is one of the most effectual ways in ridding the field of a number of the potato diseases. This operation would also insure the immediate removal of the weak and unthrifty plants which are sure to produce undersizable seed. Potato growers sometimes go through their fields and remove all plants which are not true to type. Thorough roguing is one of the best methods of securing pure, healthy seed of high quality.—Dr. C. A. Zavitz, Ontario Agricultural College.

Exercise the Breeding Stock.

Exercise is essential for all male breeding stock. At certain seasons of the year it is an easy matter to arrange for ample exercise for the stallion, the bull, the boar, or the ram. At other times it is rather difficult and frequently little or no exercise is given, or if given too much freedom occasionally, harm to the sire is the result.

The bull should not be allowed to run loose in the pasture with the cows. In the first place it is a dangerous custom, as it gives abundant opportunity for the bull to attack a person unawares or where escape is difficult. Further, a record of the date of breeding of the cows cannot be kept and no herd can be handled to the best advantage without these records.

The main points to be observed in keeping a bull in good condition so as to retain his breeding powers are to avoid excessive use when young and to give plenty of exercise and a moderate ration when mature. A good boxstall, about ten by twelve feet, gives freedom indoors, and it is well to arrange for a strong paddock outdoors with convenient passage between the two. Two or more bulls of any age may be kept together if they be dehorned, and the advantage is that more exercise will be taken.

The stallion on a route usually gets plenty and sometimes too much exercise. At other times moderate work of the boxstall and paddock will suffice.

The ram running during the greater part of the year with the main flock gets plenty of exercise, especially if the breeder is aiming for a crop of strong lambs, and gets the flock outside practically every day during the winter.

The boar will do best on a grass plot with plenty of shade during summer, and in a pen provided with a small yard during the winter months.—Harry M. King, B.S.A., Ontario Agricultural College.

Millinery Reduced

From now until the close of the season we offer all our trimmed and untrimmed shapes at reduced prices.

" Goddess " Front Laced Corsets

All sizes in three different models in this popular corset.

White Shoes

Ladies' white canvas pumps, high cut canvas lace shoes with French or sport heels—leather or rubber soles. All sizes in tan and white running shoes
