The Osprey Agricultual Fair Board met at Feversham on October 27th, at the home of Mr. and Mrs. Jas. Long to hear reports and consider some matters relative to the work of the Fair. THEN AND NOW

THEN

Women wore hoop skirts, bustles, petticoats, corsets, cotton stockings, buttoned shoes, frilled cotton drawers; they did the cleaning, washing, ironing, raised big families, went to church on Sundays and were too busy to be sick; men wore whiskers, plug hats, ascot ties, red flannel underwear, chopped wood, bathed once a week, drank 10 cent whiskey, 5 cent beer, rode bicycles and buggies, went in for politics, worked 12 hours a day and lived to a ripe old age. Stores burned coal oil lamps, carried everything from a needle to a plow, trusted everybody—never took inventory, placed orders for goods a year in advance and always made money . . . and . . .

NOW

Women wear silk (or no) stockings, no corsets, an ounce of underwear, have bobbed hair, smoke, paint, powder, drink cocktails, play bridge, drive cars, have pet dogs and go in for politics. Men have high blood pressure, wear no hats, little hair, shave their whiskers, play golf, bathe twice a day, never go to bed the same day they get up, are misunderstood at home, play the stock market, ride in aeroplanes, drink poison, work five hours a day, play ten, and die young. Stores have electric lights, cash registers, and elevators, but never have what the customer wants, trust nobody, take inventory daily, never buy in advance, have overhead, markups, markdowns, quota budget, advertising, stock control, annual and semi-annual sales, end of year and anniversary sales, dollar day, founder's day, rummage sale, economy days, and never make any money.

CITIZENS OF
GREY COUNTY!

YOUR GOVERNMENT NEEDS YOUR SCRAP IRON AND STEEL NOW

More scrap steel and iron is urgently needed if we are to produce the ships, tanks, planes, guns and munitions necessary to win this war. You are asked to do your part by turning in every available ounce of scrap metal you can find in your home or on your farm.

This campaign is from November 1st to December 15th, 1942.

In order to facilitate the systematic collection of scrap iron and steel in your County, Wartime Salvage Limited, a Government Company, and the Steel Controller, have completed arrangements with your County Warden and Township Reeve to supervise the collection and sale of the scrap iron and steel you deliver.

HERE IS WHAT YOU DO

Dig out every ounce of scrap iron and steel you can put your hands on.

Township Groups have been formed. Find out from **your** Township Reeve how and where he wishes you to take your scrap.

The price to be paid by Wartime Salvage Limited, a Government Company, has been fixed by the Department of Munitions and Supply as follows:

1. **Price at Collection point will be $7.00 per net ton on ground.**
2. **For scrap loaded on cars containing less than 25 tons, price will be $8.50 per net ton.**
3. **For scrap loaded on cars containing 25 tons or more price will be $10.00 per net ton F.O.B. cars.**

The above prices will be paid for all forms of scrap iron and steel excluding (a) Sheet Tin of any kind, (b) Automobile Bodies and Fenders, (c) Stovepipe, and (d) Wooden Attachments.

HOW TO DISPOSE OF YOUR SCRAP WHEN COLLECTED!

When you have delivered your scrap to the place designated for your Group in accordance with the instructions of your Township Reeve, you can then—

★ 1. Sell your scrap metal to the Government Agency and divide the proceeds of such sale among the various members of your Group to which you will be appointed by your Township Reeve, or—

★ 2. You may donate your scrap metal to the Voluntary Salvage Corps or Committees functioning in your Community, or—

★ 3. You may sell your scrap metal to the Government Agency and then turn over part or all of the proceeds of this sale to the Local Salvage Corps or Local War Charities.

Your contribution to the war effort is simplified by this arrangement. Don't wait until you are urged by your Township officials to do this all-important work. Get busy right away. Canada needs, and must have, tons of scrap iron and steel now if we are to keep our fighting forces armed and ready to win through to victory.
