Ontario's Big Record

Ontario's large place in the economic position of Canada was never better illustrated than in the last Victory Loan campaign, but if it is to be maintained, another supreme effort will be needed in the campaign soon to open. Nearly half the total subscriptions in November, 1917, were from Ontario, and there has been talk that the same proportion is expected this year. The war spirit and war service of Ontario have been so magnificent that there is little prospect of a disappointment now. This province has been the centre of munition making, with the liberal distribution of money which that brings, and its agricultural, mining and other industries, have been on a most buoyant basis.

As a result of the splendid campaign and the generous response of the people, the province of Ontario raised $202 185,400 of the $419 289,000 for the Dominion in the fourth loan. This came from 263,000 subscribers, averaging $79 03 each, out of the 820,035 lenders in all Canada, averaging $53.13 each. Quebec came second with $94,287,250 from 126,534 subscribers, or $41.66 each. In Ontario one person in every 7.11 was a subscriber, but Manitoba with one in 7 excelled this record. In the Dominion as a whole one in every 9.62 was a subscriber.

DUNDALK

S. Bell has sold his grain elevator to H. White & Co. of Shelburne, who have had the property under lease for the past eight years.

The citizens of Dundalk can rest assured that there will be no shortage of coal or wood here this winter.

The big corner store owned by S. Bell and occupied for a great many years by J. E. Richards as a general store, is being divided into three sections which are leased for a term of years as follows: D. Campbell, druggist, will occupy the corner section facing on Proton street; W. J. Symington, the shoeman, will move into the store to the north and also facing Proton street; T. D. McIntyre, the grocer, will move across the street from his old premises to the grocery facing Main street. It is expected that the necessary partitions and alterations will be completed and the premises will be ready for occupation in October—Herald

Bears in the neighborhood of Angus have a scocial way with them. They fraternize with cows and climb trees for beechnuts. During the last three weeks five bears have been killed by Mr. Roy McKinnon on his father's farm, Nottawasaga flats, four miles from Angus.

PORTLAW

Mr. John Winters had the misfortune to have his right hand badly torn while cranking his car.

Miss Alita Jamieson, of Toronto, has been visiting with numerous friends of this part.

On account of the pastor's illness the service in Mount Zion church on Sunday was conducted by Mrs. Eagle, who preached a delightfully practical and inspiring discourse.

Anniversary services will be held in Mount Zion church on Sunday next Rev. Thomas Laidlaw, of Heathcote, a former pastor, will preach at 10.30 a.m. and 7 30 p.m. to which all are invited. On Thursday the 24th inst. a supper and entertainment will be given in the commodious new hall, which is now about complete.

Letter From England

Pte. W. Williams, who is now in Witley camp, England, writes his mother at Eugenia in part as follows:

"I am getting along with the drill here fine I have passed everything so far. I was through the gas chamber the other day. It was real gas, too, and stronger than any the Germans ever used. They had what they called the 'tear gas,' and, believe me, they have the right name for it. They made us go through it without our gas masks on and when I got out I was crying like a baby. The tears were running down my cheeks like rain. It don't hurt you, but just makes you so you can't get your eyes open for a while.

"I wish you would hurry up and send me one of your cakes. We can't get decent cake here, and I have only tasted one decent piece of cake since we came over. And I wish you would send me some chocolate and soap. Soap costs twice as much here as it does over there.

"I wish I was at home with you for one good meal. I haven't had a decent meal since I came over here, I was down at a town last Sunday and I went into a cafe and got two boiled eggs and four slices of bread. It cost me one shilling and sixpence. But I found a place at last. It was the Soldier's Club. I went in there and got two fried eggs, four pieces of bread, a piece of cake and a cup of tea, and it cost me one shilling. So it wasn't so bad."

Thrifting, Are You?

We think we are thrifting,
But maybe we're drifting,
And the coin that we clink is not saving, but shifting,
For seemingly spending
Goes on without ending,
And heedlessness still is the tend of our trending.

In gleaning my meaning
You'll find gasolining
Is still used for dusting instead of for cleaning;
And most of us batten
On fine fare, and fatten
While robing our softness in purple and satin.

Oh, maybe you're guilty, and maybe you're not,
But ask: "Have I thrifted as much as I ought?"

Our thrifting is fickle,
It runs in a trickle,
We pickle a nickel to give us a tickle,
Then ride on the trolleys
To go to the Follies
And hand ourselves thanks and a couple of jollies.

Man still goes on puffing,
Imbibing and stuffing,
And holding enough, yet without "Hold! enough!"-ing,
And woman still poses,
And shows us her hoses,
All silken and sheer to excuse her discloses.

At the end of the day, if you're feeling too good,
Ask this: "Have I thrifted as much as I should?"

Gasoline Engines

Three-quarters of farm machinery for multiplying profit and saving labor is built for attachment to gasoline engines. The efficiency of ensilage cutters, grinders, water systems, etc., depend upon the source of power. The selection of an engine, therefore is the important question of farm equipment.

We can supply you with a LISTER, TORONTO or FAIRBANKS MORSE engine, any of which are guaranteed to give entire satisfaction.
