

# On The Main Street

With FORD MOYNES

"I have travelled thousands of miles in many parts of Canada, United States and Mexico and I can honestly say that this part of Canada, this beautiful province of Ontario and this grand town of Lindsay, with its fine homes, wide main streets and wonderful people beats them all". The speaker was Jerry Connolly, born and raised in Lindsay and for five years a prominent industrialist living in the city of Mexico.

Jerry Connolly graduated from the Collegiate Institute at

an early age and started his business knowledge as an office clerk at the Brake Shoe plant on Colborne Street, east, and was quick in accepting a transfer with the company to Mexico, where he pioneered the business. The future is bright for this industrious industrialist.

Always interested in sports as a high school student, he took to the game of curling as a student and later as an officer of the Peel Street Club, was directly instrumental in starting the one time Scugog Bonspiel and other annual events.
