EUGENIA

A very enjoyable evening was spent at the home of Mr. J. Duckett on Tuesday, Jan. 24, when a reception was held for Pte. Henry Tudor of the old 147th Batt., who was presented with a purse and the following address :

Dear Friend, –The war is over or partly so. although peace has not yet been declared. Thousands of noble and brave men are returning home to their loved ones, who have watched and waited through long years, sometimes with tears of joy and sometimes with tears of sorrow, at the brave deeds done by those they loved so dearly, away off yonder on the blood stained field of battle. But now se who have been spared by the kind providence of God are returning, and that is why we are here this evening, to welcome home one of those true sons of Britain and one who brings with him the scars of battle. We welcome you home again, Henry. We honor you, sir, in that you have travelled the blood stained field of Europe to help win the liberty that every man, women and child under the British flag today enjoys. No honor is too great, no privilege is too much to offer those heroes as they return to us. Let every British subject always realize that it is to these men that we owe our freedom today. Nor must we forget those who are silently sleeping in the fields of Flanders and France, marked by a wooden cross. We therefore wish to show our deep appreciation by offering you this small token of gratitude, and we wish you God's richest blessing in all your undertakings, Signed on behalf of Friends and neighbors.

A pleasant evening was spent by a number of young people at the home of Mr. and Mrs. Will Hawkens on Jan. 22.

Seed Regulations.

Canadian farmers and gardeners are protected from the evils of planting inferior seed of many kinds of crops imported from other countries. By an Order in Council that came into effect in the autumn, importation is prohibited of unfit seed of clovers, grasses, vetches, rape, other foliage plants, field root and garden vegetables, in lots of ten pounds or more.

In Pamphlet S 12 of the seed branch of the Department of Agriculture at Ottawa, and obtainable from the Publications Branch, unfit seed is described as that which does not comply with the Seed Control Act requirements respecting the sale of seed in Canada, or if it has been refused admittance into any other country on account of low vitality.

The regulations will be carried out through the customs officials, who are required to take and forward to the Dominion Seed Laboratory for examination sample of lots of seeds of the classes named entered for consumption in Canada. Seed that has arrived in Canada and is found to be unfit shall be deported under Customs supervision. The penalty for failing to comply with these regulations is $500 for the first offense and not exceeding $1000 for each subsequent offense.

Will Not Have A County Memorinl

One thing in connection with the proposed memorial to our fallen soldiers is certain, and that is that it will not be a County affair, says the Owen Sound Advertiser. Reports from the different municipalities presented at a meeting Friday afternoon showed that practically all are in favor of the community or municipal scheme. Owen Sound was the only one that favored the County plan.

The meeting was held in the County Council chamber after the Friday session and all the municipalities were represented but Sarawak, Durham and Neustadt. Judge Sutherland occupied the chair. In opening the meeting, he referred to what had been done at the meeting in November, and read over the questions submitted for consideration by the people. He then, as a most expeditious way of arriving at a decision, called on the representatives of the different municipalities in turn to state what had been decided. As each was called he gave his report, and the result was that nearly every municipality was in favor of a community or municipal memorial to be erected in the municipality and not a County memorial.

Well ! The Government told us to increase production this last year. We took their advice and planted a lot of beans. It was a poor fall for saving the crop and a large number of them were spoiled. We have been picking them out for days now and nearly ruined our eyesight. To add to our discomfiture the price dropped like the mercury on a cold winter night. There seems to be no market for them at all. It would drive a fellow beany thinking about it. We see by the papers that the Allies are wondering what form of punishment can be meted out to Kaiser Bill. We would suggest that they make him sort beans for a month and if by that time he isn't repentant he certainly must have a heart of stone.

Quite a number from Vandeleur visited our rink on Friday evening last.

Thos. Hutchinson is renewing old acquaintances in Dundalk at present
