Flesherton Municipal Wood Yard

In pursuance of the Warning re "Wood-Fuel Famine" issued by the Department of Munitions and Supply, the Flesheton Council will set up a Municipal Woodpile. The success of the venture will depend upon the co-operation of the owners of wood-lots and volunteer laborers, in the following manner :

1 If you have wood to sell you may secure the subsidy though the Wood Yard.

2 If you are available for spae-time work (Thursday afternoons, etc.), you will be paid a standard rate per cord cut, and may purchase a share of the fuel.

3 The Wood Yard will arrange to secure wood lots, cut wood on shares, or make other arrangements with owners. It is important that anyone having fuel-wood for sale, in the tree or otherwise, should communicate with the Wood Yard at once.

Now, he's well again and doing a war job.

"MY HUSBAND'S had a nervous breakdown — just worry. He left his job in the shipyard to go into logging. But his health suffered and the doctor says he's got to take a complete rest. But we haven't any ready money. How can he rest?"

The bank manager listened to her troubles sympathetically. He knew the husband, knew the wife—both sound citizens. The bank advanced the money on personal security . . . on the good character of two honest, hard-working people.

In a few weeks, Fred was well again and working in the shipyard. The loan was paid back in full. Because of bank accommodation he is now getting financially on his feet again—and aiding Canada's war effort.

This true story—only the name is changed—illustrates how Canada's Chartered Banks, day in and day out, serve the human as well as the financial needs of Canadians.

By banking during morning hours you can help the war effort, facilitate your own business, and lighten the wartime burden on the men and women in your branch bank. More than one-third of our experienced men have gone to war.
