Pr B—B Patton, E Quinn, L Ferris, H Heard, G Teeter.

The town of Kincardine has twelve new houses under construction.

Durham is presenting each of their returned soldiers with a valuable club bag.

John Ferguson, B. A., of London, has been engaged as principal of Durham high school, to replace Mr. Allen, who recently resigned.

We are pleased to state that at present writing Mr. James Patterson, editor and proprietor of the Mirror, who has been in the Owen Sound hospital for some weeks, shows signs of marked improvement, though still requiring constant attention and watchfulness from doctors and nurses. His condition is such that if no further unfavorable complications develop his chances for complete recovery are very hopeful.—Mirror.

NOTICE

Notice is hereby given that the Municipal Council of the Township of Artemesia in the County of Grey intend at a meeting of the said Council to be held in the Township Hall at Flesherton at ten o'clock a. m., on Saturday the third day of May, 1919, to pass a bylaw to close up and convey to the Hydro Electric Power Commission of Ontario the following allowances for streets or roads in the Town Plot of Eugenia, in the said County of Grey:—

ALL AND SINGULAR those certain parcels or tracts of land and premises situate, lying and being in the unincorporated Village of Eugenia in the Township of Artemesia in the County of Grey and Province of Ontario, containing by admeasurement a total area of 1 acre and 77 hundredths of an acre and comprising firstly, a part of Purdy Street, containing 0.085 acres, secondly, the whole of Clifton Street, containing 0.35 acres, thirdly, part of Pellissier Street containing 0.485 acres, and fourthly, a part of Simpson Street containing 0.85 acres, the limits of the said tracts of land being described as follows:

FIRSTLY—Commencing at the intersection of the southerly limit of Purdy Street and the easterly limit of Clifton Street; thence northerly along the production of the last mentioned limit 66 feet to the northerly limit of Purdy Street; thence easterly along the last mentioned limit 50 feet and 5 tenths of a foot; thence southeasterly 67 feet to a point in the southerly limit of Purdy Street at a distance of 61.5 feet measured easterly along the last mentioned limit from the point of commencement; thence westerly along the last mentioned limit 61 feet and 5 tenths of a foot more or less to the point of commencement.

SECONDLY—Commencing at the intersection of the northerly limit of Purdy Street with the westerly limit of Clifton Street; thence southerly along the last mentioned limit 231 feet to the northerly limit of Pellisier Street; thence easterly along the last mentioned limit 66 feet to the easterly limit of Clifton Street; thence northerly along the last mentioned limit 231 feet to the northerly limit of Purdy Street; thence westerly along the last mentioned limit 66 feet more or less to the point of commencement.

THIRDLY—Commencing in the southerly limit of Pellisier Street at a distance of 109 feet measured westerly along the same from the westerly limit of Redan Street; thence westerly along the said southerly limit of Pellisier Street 320 feet; thence northerly at right angles to the last mentioned limit 66 feet to the northerly limit of Pellisier Street; thence easterly along the last mentioned limit 320 feet; thence southerly at right angles to the last mentioned limit 66 feet more or less to the point of commencement.

FOURTHLY — Commencing at the intersection of the southerly limit of Simpson Street and the westerly limit of Redan Street; thence northerly along the production of the last mentioned limit 66 feet to the intersection of the westerly limit of Redan Street with the northerly limit of Simpson Street; thence westerly along the last mentioned limit 561 feet to the easterly limit of Alma Street; thence southerly along the production of the last mentioned limit 66 feet to the southerly limit of Simpson Street; thence easterly along the last mentioned limit 561 feet more or less to the point of commencement.

Dated at the Clerk's Office, Artemesia, this 4th day of April, 1919.

W. J. BELLAMY, Clerk.

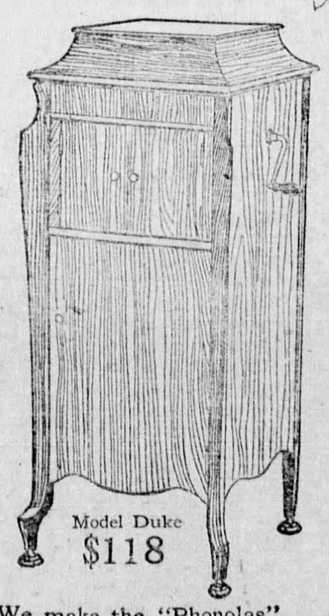
New Inventions

We take pleasure in announcing to the public that in the future the Phonola will be equipped with a new Universal Seamless Tapered tone arm which does away with all attachments. The entire arm is beautifully designed and finished, and is a marked contrast to the cheap dye cast arms seen on other makes of Phonographs.

It is the only Universal tone arm that is scientifically designed and the only one that will play all makes of records perfectly.

The Phonola will also be equipped with a new Aluminum Reproducer fitted with a special insulated rubber connection which eliminates metallic sounds from being transmitted to the Amplifier.

Equipped with these two new devices, the Phonola takes another step in advance of all competitors as furnishing the truest, clearest and sweetest tone it is possible to reproduce.



Model Duke
$118

"Phonola" REGISTERED

The price of the "Phonola" is from $10 to $25 less than other high-class phonographs. We make the "Phonolas" complete right here in Canada in our two factories at Kitchener and Elmira.

The model illustrated is one of our best sellers. It is a large cabinet, standing 42⅜ inches high, 18¼ inches wide, 20¼ inches deep. Mahogany, Oak or Walnut. All metal parts heavily nickel-plated. Double spring motor.

Other "Phonola" Models from $25 to $340.

"Phonola" Double Disc Records 90c

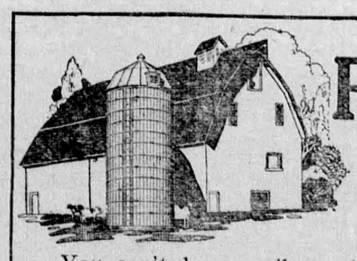
"Phonola" Records Very Popular

Every month the demand is increasing. They play with the sapphhire point—no needles to change. A new list of beautiful, clear, full-toned double disc records issued each month. Bands, vocal, instrumental. Look for the "Phonola" trademark on each disc.

DEALERS—There are some localities in Canada where we require good, live representation. The "Phonola" agency is getting more valuable every day. Write for our proposition.

The Phonola Co. of Canada, Limited 51
Kitchener, Canada

W. A. HAWKEN AGENT FLESHERTON



Perfected Silos

You can't have ensilage without a good silo.

Toronto Silos are made of selected spruce staves. Double tongued and grooved. Each stave is saturated with creosote. An added advantage is the Toronto Hip Roof. This means greater capacity, and allows tramping of ensilage to the top of the staves. These perfected silos cost no more than ordinary silos.

To cut your corn at the right time you must have an ensilage cutter of your own.

The Toronto Ensilage Cutter is designed to give efficient, light-running service. There is no choking or jamming—it takes corn, alfalfa or clover with the same smooth-running, rapid action.

Write for the free Silo and Ensilage Cutter booklets. They give the complete story of these two splendid Toronto Products.
