"Back the Attack" — BUY MORE VICTORY BONDS

ROCK MILLS

Seeding operations have not been progressing very rapidly, although we understand Joe Hawkins finished seeding last week.

A presentation was held last Thursday night in honor of Pte. Fred Partridge who was home from Victoria B. C. on furlough. During the evening Fred was presented with a lovely wrist watch from friends and neighbors. Fred left Friday for Toronto to visit friends a couple of days before returning to his post.

Mr. S. Sherd spent the week end at his home at Singhampton.

Mr. and Mrs. E. Partridge and Shirley motored to Toronto on Friday and visited friends there, returning home Sunday.

Mrs. Chas. Newell visited with Eurenia friends.

That even the small lassies have their ideas. Maybe you heard about the little Fleserton girl who, when asked what she was going to work at when she grew up, replied: "Oh, I'll just get married and do nothing."

THE STORY BEHIND MEAT RATIONING

Food is a weapon of war, and we must share our supplies with those who are fighting to keep the war from our shores. After all special wartime demands are taken care of, only one half of the meat produced in Canada will be available for ordinary domestic consumption at home.

Meat supplies for our Armed Forces must be maintained at all costs.

Canned meat is required in large quantities by the Red Cross to send to our boys who are prisoners of war.

Great Britain has to depend more and more on Canada for supplies to maintain even its present low ration rate of 28 cents worth of meat per person, per week.

Places like Newfoundland and the West Indies, which previously secured their meat from other sources—must now depend to a great extent on Canada.

Since the war started the consumption of meat by civilians has increased in Canada. Great defense projects such as the Alcan Highway and the Shipshaw Power Development have created new and large demands for meat in areas where practically no demand existed before.

The many extra ships of the United Nations now calling at Canadian ports, must be furnished with meat.

RATIONING IS INTELLIGENT FORESIGHT — INTELLIGENT PLANNING

Coupon rationing is the only way of ensuring equal sharing of the meat available for civilian consumption in Canada. Those with lots of money will not get more than their share—and those with less money will be assured of getting their fair share.

Rationing will help prevent local meat shortages such as occurred last year from becoming widespread and continuous throughout the whole Dominion. The incentive for panic-buying which empties butcher shops early in the day, will be eliminated.

THE MEAT RATION WILL BE AMPLE FOR HEALTH AND NUTRITION

Fortunately, our meat production in Canada has increased. So, although only half our production will be available for civilian use, it wil mean a reduction of only about 15% to 20% in the average household consumption.

The proposed ration of 2 lbs. (carcass weight) per person, per week, has been approved by the country's leading food and nutrition authorities, as ample for the health and nutrition standards of everyone—regardless of age or occupation.

DATES AND OTHER DETAILS REGARDING MEAT RATIONING—SOON TO BECOME EFFECTIVE IN CANADA — WILL BE ANNOUNCED LATER
