The New Remedy for Worms in Children or Adults.
BARKER'S
WORM SYRUP.
GREAT difficulty has been experienced in obtaining a medicine that can be administered to young Children in a convenient form. Lozenges, Candy, &c., have not been found to answer the purpose, on account of children refusing to eat them; also on account of the number of worthless preparations now before the public. Thousands of lives are sacrificed for the want of a certain and reliable medicine.
The want of a convenient, and at the same time an effectual medicine, has been long required. This WORM SYRUP will supply that want, and having paid particular attention to its preparation, the Proprietor can with confidence recommend it to the public as a certain, safe and sure remedy for destroying Worms in Children or Adults. It can be administered with perfect safety to the most delicate children, and on account of its pleasant taste children will take it freely. A large number of certificates have been received from parties who have used this Syrup with the greatest success; also from several Physicians, recommending its use.
The symptoms of worms are so well known that it is not necessary here to describe them; but it is a well known fact that thousands of children are hurried to an early grave for want of proper attention.

"Unquestionable the best sustained work of the kind in the World."
HARPER'S MAGAZINE.
HARPER'S MAGAZINE, *apart from the illustrations, contains from fifty to one hundred per cent. more matter than any similar periodical issued in the English language.*
CRITICAL NOTICES OF THE PRESS.
The most popular Monthly in the world.—*New York Observer.*
We must refer in terms of eulogy to the high tone and varied excellences of HARPER'S MAGAZINE—a journal with a monthly circulation of about 120,000 copies—in whose pages are to be found some of the choicest light and general reading of the day. We speak of this work as an evidence of the culture of the American people; and the popularity it has acquired is merited. Each Number contains fully 144 pages of reading-matter, appropriately illustrated with good woodcuts; and it combines in itself the racy monthly and the more philosophical quarterly, blended with the best features of the daily journal. It has great power in the dissemination of a love of pure literature.—TUCKER'S *Guide to American Literature, London.*
It is one of the wonders of journalism—the editorial management of HARPER'S. * * * All the periodicals which the Harpers publish are almost ideally well edited—*The Nation, N. Y.*
We can account for its success only by the simple fact that it meets precisely the popular taste, furnishing a variety of pleasing and instructive reading for all.—*Zion's Herald, Boston.*
SUBSCRIPTIONS.—1870.

"A REPOSITORY OF FASHION, PLEASURE AND INSTRUCTION."
Harper's Bazar.
A supplement containing numerous full-sized patterns of useful articles accompanies the paper every fortnight, and occasionally an elegant Colored Fashion Plate.
HARPER'S BAZAR contains 16 folio pages of the size of Harper's Weekly, printed on super-fine calendered paper, and in the largest weekly
Critical Notices of the Press.
HARPER'S BAZAR contains, besides pictures, patterns, etc., a variety of matter of especial use and interest to the family; articles on health, dress, and housekeeping in all its branches; its editorial matter is specially adapted to the circle it is intended to interest and instruct; and it has, besides, good stories and literary matter of merit. It is not surprising that the journal, with such features, has achieved in a short time an immense success; for something of its kind was desired in thousands of families, and its publishers have filled the demand. The young lady who buys a single number of Harper's Bazar is made a subscriber for life.—New York Evening Post.
The Bazar is excellent. Like all the periodicals which the Harpers publish, it is almost ideally well edited, and the class of readers for whom it is intended—the mothers and daughters in average families—can but profit by its good sense and taste, which, we have no doubt, are to-day making very many homes happier than they may have been before the women began taking lessons in personal and household and social management from this good-natured mentor.—The Nation.
It has the merit of being sensible, of conveying instruction, of giving excellent patterns in every department, and of being well stocked with good reading-matter.—Watchman and Reflector.

HOSTETTER'S BITTERS, MISHLER' BITTERS, RICHARDSON'S BITTERS, PLANTATION BITTERS, &c.
There is no form in which distilled spirits or diluted alcohol is presented to the public more likely to create confirmed habits of tippling, and a final and fatal slavery to the cup, than in the forms suggested by the heading of this article. These compound are nothing more nor less than whiskey or rum, disguised by the addition of some bitter barks, woods and roots, of which a man with a terrible acquaintance with botany might gather a cart load in almost any patch of woodland in our country. * * * These bitter makers are building fortunes out of the sale of bittered whiskey, and out of the credulity and unscientiousness of thousands in whose impaired nervous systems there is a demand for stimulants or narcotics, and who have yet too much regard for an improved public sentiment, and too much conscience to drink whiskey raw from a whiskey saloon or a bar-room. In a future number of the Advocate I propose to unmask with an unsparing hand of smooth hypocrisy, mock philanthropy and affected sympathy for suffering humanity with which this colored whiskey business is so artfully guided. In the meantime, let all friends of temperance and lovers of their country and race beware of the whiskey devil disguised as medicine.—Charles Jewett.

Laboratory of Department of Agriculture
Washington, Dec. 28, 1869.
A. M. F. Gianelli's (of Montreal) "Wine Bitters," tested in this Laboratory, yielded the following results: "Royal Italian Bitters" (2 bottles examined) specific gravity 1.0009.
Mean of several determinations

Alcohol (by weight).....	15.2-00	per cent.
Sugar (cane).....	3.37	do.
Do. (fruit).....	63	do.

The extraction was abundant, and contained several aromatic odors. Upon evaporation, precipitation and re-precipitation with the usual re-agents, it yielded a substance having the reaction "Quanthine" of Faure. Tartaric acid was separable in appreciable quantity and easily detected.
Solution of Nitrate of Silver was not reduced by the liquid ("Bitters") nor was there any other evidence of the presence of Fusil Oil.
This analysis shows that the ethereal principle of Wine (Quanthine) is present in considerable amount—that the peculiar acid of Sherry Wine is also present, and that no traces of Fusil Oil can be detected.
From these reactions it is evident that Wine has been used in the manufacture of the "Italian Wine Bitters," and that no whiskey—as this latter is usually sold (i.e., without high rectification), has been used in the manufacture.
The greater portion of the alcohol found obtainably belonged to Wine present in the Bitters, and not to whiskey. (Signed)

To A. M. F. GIANELLI, Esq.
DEAR SIR,—After a fair trial, I take pleasure in recommending your Royal Bitters. It is a very excellent stomachic tonic, aiding digestion and giving tone to the digestive organs. In your note you informed me of the ingredients. I think it is a most admirable combination; a pleasant, useful, and reliable tonic.
Yours truly,
R. T. COOKE, M. D.,
New York City.
