The New Remedy for Worms in Children or Adults.
BARKER'S
WORM SYRUP.
GREAT difficulty has been experienced in obtaining a medicine that can be administered to young Children or a cantankerous Man. Lozenges, Candy, &c., have not been found to answer the purpose, on account of children refusing to eat them; also on account of the number of worthless preparations now before the public. Thousands of lives are sacrificed for the want of a certain and reliable medicine.
This want of a convenient, and at the same time an effectual medicine, has been long felt. This WORM SYRUP will supply that want, and having paid particular attention to its preparation, the Proprietors can with confidence recommend it to the public as a certain, safe and sure remedy for destroying Worms in Children or Adults. It can be administered with perfect safety to the most delicate children, and on account of its pleasant taste children will take it freely. A large number of certificates have been received from parties who have used this Syrup with the greatest success; also from several Physicians, recommending its use.
The symptoms of worms are so well known that it is not necessary here to describe them; but it is a fact well known that thousands of children are buried in an early grave for want of proper attention.

Standard Periodicals
FOR 1870.
REPUBLISHED BY THE LEONARD SCOTT PUBLISHING CO., NEW YORK.
INDISPENSIBLE TO ALL DESIROUS OF BEING WELL INFORMED ON THE GREAT SUBJECTS OF THE DAY.
1. THE EDINBURGH REVIEW.
This is the oldest of the series. In its main features it still follows in the path marked out by Brougham, Jeffrey, Sydney Smith, and Lord Holland, its original founders and first contributors.
2. THE LONDON QUARTERLY REVIEW, which commences its 126th volume with the January number, was set on foot as a rival to the Edinburgh. It resolutely maintains its opposition in politics, and shows equal vigor in its literary department.
3. THE WESTMINSTER REVIEW has just closed its 92nd volume. In points of literary ability this Review is fast rising to a level with its competitors. It is the advocate of political and religious liberalism.
4. THE NORTH BRITISH REVIEW, now in its 51st volume, occupies a very high position in periodical literature. Passing beyond the narrow formulism of schools and sects, it appeals to a wider range of sympathies and a higher integrity of conviction.
5. BLACKWOOD'S EDINBURGH MAGAZINE was commenced 52 years ago. Equalling the Quarterlies in its literary and scientific departments, it has won a wide reputation for the narratives and sketches which enliven its pages.

HOSTETTER'S BITTERS, MISHLER' BITTERS, RICHARDSON'S BITTERS, PLANTATION BITTERS, &c.
There is no form in which distilled spirits or diluted alcohol is presented to the public more likely to create confirmed habits of tippling, and a final and fatal slavery to the cup, than in the forms suggested by the heading of this article. These compound are nothing more nor less than whiskey or rum, disguised by the addition of some bitter barks, woods and roots, of which a man with a tolerable acquaintance with botany might gather a cart load in almost any patch of woodland in our country. * * * These bitter makers are building fortunes out of the sale of bittered whiskey, and out of the credulity and conscientiousness of thousands in whose impaired nervous systems there is a demand for stimulants or narcotics, and who have yet too much regard for an imputed public sentiment, and too much conscience to drink whiskey raw from a whiskey saloon or a bar-room. In a future number of the Advocate I propose to unmask with an unsparing hand of smooth hypocrisy, mock philanthropy and affected sympathy for suffering humanity with which this colored whiskey business is so artfully gilded. In the meantime, let all friends of temperance and lovers of their country and race beware of the whiskey devil disguised as medicine.—Charles Jewett.

Washington, Dec. 28, 1869.
A. M. F. Gianelli's (of Montreal) "Wine Bitters," tested in this Laboratory, yielded the following results: "Royal Italian Bitters" (2 bottles examined) specific gravity 1.0009.
Mean of several determinations.
Alcohol (by weight) ..... 15.2-00 per cent.
Sugar (cane) ..... 3 37 do.
Do. (fruit) ..... 63 do.
The extract was abundant, and contained several aromatic odors. Upon evaporation, precipitation and re-precipitation with the usual reagents, it yielded a substance having the reactions of "Oinanthine" of Faure. Tartaric acid was separated in appreciable quantity, and easily detected.
Solution of Nitrate of Silver was not reduced by the liquid ("Bitters") nor was there any other evidence of the presence of Fusil Oil.
This analysis shows that the ethereal principle of Wine (Oinanthine) is present in considerable amount—that the peculiar acid of Sherry Wine is also present, and that no traces of Fusil Oil can be detected.
From these experiments it is evident that Wine has been used in the manufacture of the "Italian Wine Bitters," and that no whiskey—as this latter is usually sold (i.e., without high rectification), has been used in the manufacture.
The greater portion of the alcohol found certainly belonged to Wine present in the Bitters, and not to whiskey. (Signed)

To A. M. F. Gianelli, Esq.
DEAR SIR,—After a fair trial, I take pleasure in recommending your Royal Bitters. It is a very excellent stimulating tonic, aiding digestion and giving tone to the digestive organs. In your next you informed me of the ingredients. I think it is a most admirable combination; a pleasant, useful, and reliable tonic.
Yours truly,
R. T. COOKE, M. D.,
New York City.

Al Signor Angelo M. F. Gianelli,
Montreal, Canada:
Gentilissimo Signore:
Fearing that a former letter which I addressed you, and sent by a gentleman who was going to Montreal, might not have reached you, I beg to—in effect—duplicate it. On my arrival here I opened the two cases of "Tonico Reale" which I purchased from you when in Montreal, and had many opportunities of submitting it to the judgment of very many distinguished persons who have honored me with their attentions during my sojourn here.
I have very great pleasure in acquainting you that the Tonico meet with universal approval, both among Ladies and Gentlemen, and for myself I must say that I have derived great benefit from its use.
An eminent chemist of this city says that you committed a grave error in omitting to send a sample to this great Exposition, feeling assured that it would have received distinguished honor.
As many of my friends are now almost habituated to it, I will thank you to forward by the first steamer, through your agent in New York, five cases, together with the bill for the same, on receipt of which I will immediately remit the amount.
With best wishes of success,
I remain, truly yours,
ADELAIDE RISTORI DEL GRILLO
In adducing the foregoing unimpeachable testimonials to the salutary properties of my "Royal Italian Bitters," I would earnestly protest against the imputation of being a promoter of the improper use of intoxicating drinks. I believe, indeed, this Wine, among all the Creator's gifts to man, is good in itself, and its temperate use allowable to all; and, therefore, have no hesitation in admitting it to be an ingredient in my preparation, with as much of the alcoholic principle as is inseparable from its nature. But I am no apologist for drunkenness or drunkards, and believe that those who have not sufficient self-control to avoid running into excess had better abstain altogether from its use.
Kept by the principal Wine Merchants Druggists and Grocers. Retail price 75c per bottle
