THE WATCHERS on the cliffs cheer their going and coming as—night after night—R.C.A.F. bombers deliver shattering blows.

Canadian attack teams are famous for their skill and daring. As raw recruits, they entered R.C.A.F. Training Schools. They emerged within a few happy and exciting months as trained specialists—clear-eyed and competent.

Every member of a bomber crew is an expert at his own job, yet at the same time part of a closely-knit, smooth-working team. Happily, too, the air training and technical knowledge possessed by these fighting comrades of the skies will open up golden opportunities to them later in civil life.
