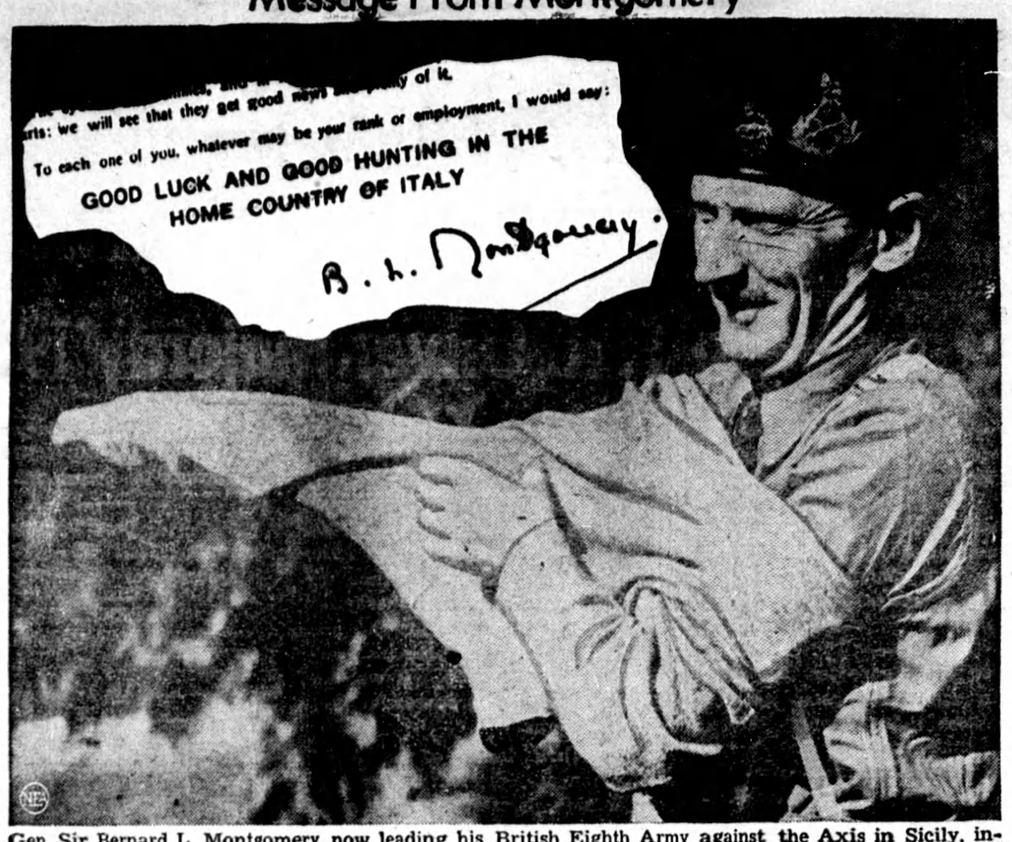
Message From Montgomery



Gen. Sir Bernard L. Montgomery, now leading his British Eighth Army against the Axis in Sicily, inspired his troops with the pre-invasion message whose concluding words are shown here. He is pictured donning a sweater just before renewing battle with Axis forces.

How Can I ??

By Anne Ashley.

Q.—How can I clean matting?

A.—Wipe off the matting with a cloth wrung from salt and water, and it will prevent it from turning yellow.

Q.—How can I protect the lower part of the walls in the basement?

A.—When painting the basement floor, let the paint extend about ten inches above the floor. This will be a protection to the lighter colored walls when the floor is mopped.

Q.—How can I easily cut fresh bread?

A.—Pass the blade of the bread knife through a flame to heat it, and there will be no difficulty in cutting fresh bread.

Q.—How can I destroy earthworms in the soil of a potted plant?

A.—Put a teasponful of camphor in a quart of water and sprinkle the soil with this while it is dry.

Q.—How can I prevent curtains from blowing out of the window and becoming soiled?

A.—By using lead dress-weights. These weights can be covered with material the same color as the curtains, then slipped into the bottom hems of the curtains. Using about five weights in each hem will make the curtain hang evenly.

Vegetable production in Britain has been raised from the pre-war figure of 2,500,000 tons to 4,000,000 tons.

Britain Will Draft Youths For Mines

British boys from 16 to 18 years of age must be drafted for work in English coal mines to boost the lagging production of coal for the nation's fuel-hungry war industries, Ernest Bevin, minister of labor, told the Blackpool Mine Workers Federations last week.

Pleading with the federation not to "raise a political storm" over the issue. Bevin said it was urgent that 30,000 to 60,000 youths be called up. He disclosed that although 47,000 miners have returned to the pits from other higher-paid jobs, the number of miners has fallen to 690,000. He estimated the absolute minimum needed to keep production at the necessary level at 720,000 to 750,000.

"Heretofore boys reaching the draft age have been given their choice of going into the armed forces or into the mines, but Bevin said that so far only 3,000 have taken mining jobs in preference to 50-cents-a-day service with the army and navy.
