REMEMBER !

Father Time is a dual personality. He is a veritable Dr. Jekyll and Mr. Hyde. At one and the same time h is kind and he is cruel.

If we want proof of this, we need only cast our thoughts back to the days of 1915-18. Since that period Time graciously healed most of the wounded Canadian hearts which then ached in loneliness and begged piteously for one more touch of the missing hand and lips of those stilled forever in the mud of Europe. But Time also dulled our memories of the horrible pain and grief which swirled in the wake of predatory German generals.

Only fourteen years after 1918, when German viciousness began to rise again as a threat against world peace, Time had blurred our minds. We do not readily recall the inhuman heart-breaking experiences of the first World War. There was no overpowering urge in our breasts to stamp out the smouldering fire of conquest before it became an unmanageable holocaust. Time had so softened our recollections of the tragedy in that short space, the awakening of the German militaristic spirit did not warn us to meet and overpower it immediately.

Have we yet learned how wicked Time can be?

It is only four yars ago since the stiff-necked goose-steppers ran bayonets through the frail bodies of old men and women in Poland, led little children into fields to shoot them down with machine gun bullets. But three years have passed since the Germans bombed old and young civilians out of the towns and cities of Belgium, to choke the highways against the approach of opposing armies—and then bombed and machine-gunned these helpless creatures along the roads. Will we let Time make us forget that now?

It is about three weeks since the Nazi monsters looted the city of Naples and mercilessly murdered inhabitants, because they expressed their dislike of the German cause. Can we forget that also?

For four years, thousands of the finest of our Canadian youth, destined to live happy lives among us, have fallen victims to German guns. Is our sorrow from their loss already cooling?

Or are we keeping those bitter memories of the past since 1939, arousing in our hearts a grim determination to end this senseless parade of wars for a long, long time?

There is a message being spread throughout the land in these days of the Fifth Victory Loan campaign. Its purport is, "Let's not become complacent."

But here is a yet more potent slogan for us at this moment. It is contained in one word:

"REMEMBER."

If we will keep geren the indescribable horrors of this war, if we will remember that these were perpetrated by the Germans and will be repeated again and again unless we completely crush the German militaristic spirit, we won't need any warning against complacency.

We will pour our dollars into Victory bonds as never before, speed our work in war factories and take increasing pride in the actual job of extermination which our men are carrying out at the battle front.

ROCK MILLS

Hallowe'en passed off very quietly with only a few pranks being played by the youngsters.
