In Memoriam

McKEE — In loving memory of my dear mother, Selena Jane, who passed away two years ago today, June 1st, 1942.

I cannot clasp your hand, Mother dear,
Your face I cannot see.
But let this little token
Tell that I still remember you.

—Sady missed by your daughter, Elsie.

Flo-glaze "LEAVES NO BRUSH MARKS" **Paints and Enamels**

McKillop Estate, Flesherton

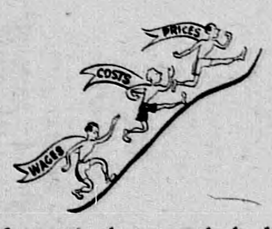
I had a nightmare...

I dreamed that I paid $5.00 for a haircut and $50.00 for a pair of cardboard shoes. I dreamed that we had no wartime controls on prices, profits or wages, and that we hadn't had the sense to organize the distribution of supplies all the way down the line . . .

I dreamed that because everyone was making more money and spending it, prices were skyrocketing.

all the stores looked like "fire" sales . . . with people scrambling to buy before prices went still higher . . .

panicky people were buying things they didn't need, and hoarding everything they could get their hands on . . .



I dreamed that everybody had to fight to get more money . . . and that in this mad race, wages and salaries were falling behind.

I dreamed the hand of everyone was against his neighbour, with each of us blaming the other fellow for his troubles.

with everybody for himself . . . no matter what it cost in the long run . . . and no matter how it hurt the war effort.

THEN...THANK GOODNESS—I WOKE UP!

to realize with relief that I live in a country where things are sane and stable . . . where the cost of living has been kept within bounds.

to realize that prices and wages—production costs and selling prices—are inseparably linked together.

to realize that without the safeguards that have headed off inflation, my nightmare might have become a reality!

to remind myself that the danger is still pressing and that we must continue to hold firm . . . and that means everybody must play fair and do his part by not trying to get some temporary, fancied advantage at the expense of his fellow-Canadians.

This advertisement is one of a series being issued by the Government of Canada to emphasize the importance of preventing further increases in the cost of living now and deflation later.
