We Can Buy Our Way Into a Breadline!

History is a meek little word that covers a multitude of suffering. And only through profiting by past mistakes...will we suffer less! Remember how in the last war folks "blew" their money. Needless spending caused prices to rise ... so that by 1918, the 25 lbs. FLOUR you buy today for 89¢ cost $1.85 then; while baby's coat was $12.00 compared to a similar coat at $4.98 today. This was inflation and all too soon it was followed by the inevitable depression! RELIEF TICKET That's why our government is determined to prevent inflation now. . . why there are price ceilings and other anti-inflationary measures to hold the cost of living down and keep our dollar value high. And YOU help prevent a future depression and keep your dollars high in value... every time you pass up a needless luxury 50¢ . . . invest your money wisely VICTORY BOND . . and avoid black market spending.

Make This Pledge Today!

I promise to give my support to keeping the cost of living down. I will buy only what I need. I will observe the ceiling whether buying or selling goods or services. I will pay off old debts, save for the future, invest in Victory Bonds and War Savings Certificates. And I will support taxes which help lower the cost of living.

Keep Your Dollar Value High!
