Too Many Accidents On Canadian Farms

The cold truth is that the ratio of preventable accidents in agriculture is higher than in any other industry. Many hundreds of farmers, members of their families and workers on farms are killed and many thousands injured every year in Canada as the result of accidents, most of which could have been prevented.

With the farm labour shortage just now so acute and when all out production of food is so essential to the war effort, the accident toll is particularly serious.

A survey has disclosed that machinery is the chief source of farm work accidents; that live stock runs a close second and that falls are in third place. The wise farmer is he who learning the causes of accidents on his farm takes steps to eliminate such causes and all possible hazards. For example, the fact that loose clothing causes one-third of all farm accidents involving machinery should make anyone avoid that particular hazard like the plague.

And ever-present threat of fire, which annually destroys millions of dollars worth of rural property, ought to be enough for a farmer to justify devoting at least a part of one morning per month to looking round the farm for fire hazards, and accident hazards, too.

Prevention of accidents means avoiding making an acute farm labor shortage more acute and also means an even bigger contribution to food production.

Safety First is a good slogan for any farm.

Any woman would rather be two-faced than double-chinned.

Mr. and Mrs. Alf Down, Chatsworth were callers on the line on Sunday.

Passenger—"Why is this train so late?"

Conductor—"Well, you see, sir, the train in front is behind, and we was behind before besides."

Seeking an interview with his commanding officer, the young man shyly asked for special leave.

"Humph!" said the C.O. "And what do you want it for?"

"Well, sir," was the bashful reply, "a lady friend of mine is getting married and—er—she rather wants me to act as bridegroom."

WEEDS

The Weed Control Act will not control a single weed. Any work that is accomplished must be the result of definite human action. The co-operation of every individual is necessary. Weeds have no place in a progressive village, they are a menace to well kept lawns and gardens.

It is your duty, as a good citizen, to look after your own lots and see that the weeds are kept under control Don't ask the Municipal Officials to enforce the Weed Control Act, get after the weeds now and make your Village a more attractive place in which to live.
