EVER walk into an auction and find yourself getting excited and wanting to bid . . . a victim of "auction fever"? Wartime conditions can breed "auction fever" if we let them. Everything is in short supply. Many more people are able to bid.

But . . . if prices are bid up . . . all our dollars will lose some of their value. Even necessities could get out of reach.

- **What use is more money, if living costs go up still higher.**
- **What good are higher returns to business, if they are offset by higher costs.**
- **What does the farmer gain if higher farm prices lead to depression and low prices later.**

We cannot continue a full war effort and prepare to meet the problems of the post-war period unless we maintain a stable and reasonable price level now.
