When Travelling

Always take with you a bottle of Dr. Fowler's Extract of Wild Strawberry.

The change of food and water to which those who travel are subject, often produces an attack of diarrhœa, which is as unpleasant and discomforting as it may be dangerous.

A bottle of Dr. Fowler's Extract of Wild Strawberry in your grip is a guarantee of safety.

On the first indication of Cramps, Colic, Diarrhœa or Dysentery, a few doses will promptly check the further advance of these diseases.

As Dr. Fowler's Extract of Wild Strawberry is being widely and shamelessly imitated, your safety lies in seeing that the full name is on every bottle you buy.

IMPORTANT INFORMATION.

Mothers, beware of opiates and stupifying drugs when your baby is teething. Two drops of laudanum have proved fatal to a delicate infant, and a third of a grain of opium has been known to cause the death of an infant nine months old. Some soothing mixtures and powders have much to answer for in the records of infant mortality. Doctor Hammond-Hall's English Teething Syrup contains no opiate, narcotic, alcohol or hurtful drug. Is pleasant to take, and leaves no after ill effects.

Prohibition Prohibits.

London, June 27.—"During the three weeks I have been in Great Britain I have seen more drunken men than I saw in twelve years in Topeka, where prohibition is enforced." So spoke the Rev. Charles Sheldon in Edinburg at the convention of the world's woman's christian temperance union.

Two Cases Of Piles.

That Defied Every Treatment and Caused Intense Misery Until Permanently Cured By

Dr. Chase's Ointment.

A worse case of piles than the one recorded here would be difficult to imagine. In vain was the search for a cure, and the victim endured intense misery from the terrible itching and burning.

Mrs. James Brown, of Hintonburgh, a suburb of Ottawa, states: "I have been a constant sufferer from nearly every form of piles for the last 20 years, and during that time both here and in the old country have tried almost every remedy.

"I am only doing justice to Dr. Chase's Ointment, when I say, I believe it to be the best remedy obtainable for bleeding, protruding piles.

"I strongly recommend Dr. Chase's Ointment to mothers or, indeed, to any person suffering that dread torment—piles."

Besides absolutely curing any form of piles, Dr. Chase's Ointment is a quick and lasting relief for the itching to which women are subject and positively cures eczema, salt rheum, and all kinds of itching skin diseases. It is of incalculable worth in every home.

Another interesting case was that of Mr. Joseph Jackson, of the Laurie Spool Co., St. Alexis des Monts, Que. Here is a copy of the letter received the other day from Mr. Jackson, wherein he gratefully acknowledges the unusual merit of Dr. Chase's Ointment. Mr. Jackson says:

"You can put my name to any praise you can give to Dr. Chase's Ointment for it has done me the most good of any medicine I ever used. I have been troubled for two years with bleeding piles, and after using Dr. Chase's Ointment I can say that I am entirely rid of this miserable disease. I must say that Dr. Chase's Ointment is a treasure for all persons suffering with piles."

False modesty prevents many from seeking advice or submitting to a local examination by a physician. Then, besides, there is the dread of the surgeon's knife, the only means which many doctors use to cure piles.

Before the discovery of Dr. Chase's Ointment there was no reliable cure for piles, no cure that would absolutely cure any case of piles, whether itching or protruding piles.

To-day, nearly everybody in Canada and the United States, and very many in Europe, know of Dr. Chase's Ointment as a cure for piles.

It is a wonder of medical science, which has been frequently imitated, but never successfully. 60 cts. a box, at all dealers or Edmanson, Bates & Co., Toronto.

OZONE!

Dawn of a New Era!

DISEASE

Shorn of Its Horrors and Natuae Assisted to Perform Its Work.

Powley's Liquified Ozone is the only remedy yet discovered which proves to be antiseptic and harmless. It has the power to destroy the "germs" of disease, and at the same time is perfectly harmless to the most delicate system. Ozone inoculates the system with a health principle. Ozone is distinct from any other preparation in the world, and its power over disease is tenfold greater than preparations containing powerful drugs and minerals.

It embodies the healing properties that nature alone provides, and positively cures the following named diseases: Consumption, kidney disease, catarrh, cancer, rheumatism, asthma, eczema, la grippe, dyspepsia, bronchitis, croup and diphtheria.

Ozone is not alone an internal remedy, but is equally as beneficial when applied to wounds, sores, burns, bruises, erysipelas, and all skin diseases. The antiseptic properties thoroughly remove the foetid or decayed matter in sores, healing the parts quickly, and dispelling pain.

Powley's Liquified Ozone is sold in all drug stores. Large size, $1; small, 50c., or sent direct by addressing the Ozone Co., of Toronto, (Limited). "Booklet" explaining the new principle of cure on request. Special circular on female troubles.

The cures of rheumatism and Dyspepsia effected during the last hundred years by the baths and waters of the Magi Caledonia Springs have given them a world wide repute.

RUSSIA'S LITTLE GAME.

Planning to Break the Concert and Take Possession of Pekin.

Chifu, June 26.—The officers of the British first-class cruiser Terrible assert that discord exists between the Russians and Anglo-Americans, and say they believe that the Russians are planning to break the concert and take possession of Pekin independently. They assert that vice-admiral Seymour's command lacked unison, the foreigners sulking because they were under British leadership. They bitterly denounce the general conduct of the Russians as uncivilized and barbarous, and charge that the slaughter of peaceful Chinamen at Taku has aroused the otherwise passive natives against the foreigners.

Mexican School Teachers Tour.

New York, June 27.—A party of fifteen men and girls sailed from here today bound for Vera Cruz, Mexico. They are Mexican school-teachers, and have just completed an extensive tour of the United States at the expense of the state of Vera Cruz, in quest of knowledge pertaining to the management of primary and lower grade schools. Their investigation was very thorough, and much good will undoubtedly result. Vera Cruz stands at the front in educational movements in Mexico. The first university was established there eighty-three years before Harvard was founded. The first printing press in America was in Mexico. At present, however, the proportion of Mexican children who attend school reaches only twenty-seven per cent.

A Wedding in St. Mary's Cathedral This Morning.

In St. Mary's cathedral at half past eight o'clock this morning, Prof. John Mugan, of Regiopolis college, Kingston, and Miss Maggie McKenty, second daughter of John McKenty, Johnston street, were united in holy bonds of matrimony. Celery King for Anæmia

Anæmia is caused by an absence of the red corpuscles in the blood. Celery King will supply the blood with oxygen, clean out the bowels, and build up the system.

"Two years ago I was a great sufferer from womb troubles and profuse flowing each month, and tumours would form in the womb. I had three tumours in two years. I went through treatment with doctors, but they did me no good, and I thought I would have to resort to morphine. The doctors advised an operation to remove the womb, but I decided to take Celery King. I had heard it spoken of so highly. I bought two packages and began to feel better from its use. The tumours have been expelled and my blood is in splendid condition. Celery King is a superb treatment for weak women."
