THE

PACIFIC NORTHWEST!

Oregon, Washington & Idaho

Offers the best field for Emigrants—for a mild, equable, and healthy climate; cheap lands of great fertility, producing all varieties of Grain, Fruit, and Grasses to wonderful advantage; an inexhaustible empire of Timber; vast Coal Fields, and other mineral deposits; cheap and quick transportation by railroads and river navigation; direct connection with all parts of the world, owing to its proximity to the Pacific Ocean.

NO DROUTHS, NO INSECT PESTS, NO HURRICANES, WHIRLWINDS, OR OTHER DESTRUCTIVE PHENOMENA.

The yields of the Pacific Northwest show an average yield of wheat per acre largely in excess of that of any other section of the United States.

No failure of crops has ever occurred.

Oregon wheat commands a higher price than that of any other country in the Liverpool market.

An immense area of very lands, Railroad and Government Lands, within easy reach of the trunk lines of the North Pacific RR., the Oregon Railway & Navigation, and the Oregon & California RR. Cos. and their numerous branches in the great Valleys of the Columbia and its tributaries, are now offered for sale at Low Prices, and on Easy Terms, or open to pre-emption and Homestead Entry.

The great movement of population to the Columbia region now in progress will be vastly increased by the completion of the Northern Pacific RR. and the Oregon Ry. & Navigation Co.'s systems. This renders certain a rapid increase in the value of Lands now open to purchase or to entry under the United States Land Laws.

FOR THE

KIDNEYS, LIVER AND URINARY ORGANS

THE BEST BLOOD PURIFIER.

There is only one way by which any disease can be cured, and that is by removing the cause—whatever it may be. The great medical authorities of the day so have that nearly every disease is caused by deranged kidneys or liver. To restore these therefore is the only way by which health can be secured. Here is where WARNER'S SAFE CURE has achieved its great reputation. It acts directly upon the kidneys and liver and by purging them in a healthy condition drives disease and pain from the system. For all Kidney, Liver and Urinary troubles, for the distressing diseases of women, for Malaria, and physical breakdown generally, this great remedy has no equal. Beware of impostors, imitations and compounds said to be just as good.

Hancock's Inspirator

IS THE MOST ECONOMICAL APPLIANCE KNOWN for feeding boilers or pumping purposes, on account of the great range of adaption and the small expenditure of steam required for working it. It is intended to take the place of Pumps and Injectors and may be used in their stead to great advantage. It differs materially both in its

Construction & Working Qualities

from the class of boiler feeders known as injectors, as it has one set of tubes for lifting and another set of tubes for forcing water, a combination entirely new, reliable and efficient. They are simple to operate, always ready for use and altogether a very reliable feed for boilers.

ONTARIO FARMERS.

Address by Members on Their Own Calling—The Record of the Government.

The undersigned, as practical farmers, and especially representing that class in the Ontario Legislature, desire to call your attention toward the growing importance of agriculture in our Province.

We point with pride to the fact that the value of the products of the farm now reaches a vast sum yearly, and it is steadily on the increase.

For richness of agricultural products Ontario now takes the first place, not only in our own Dominion but in the whole American Continent. We have skilful farming, a rich soil, and a favorable climate.

At no period in our history has more enterprise been manifested among our agricultural population, or more solid improvements made than at the present time.

In every department of our business the watchword is onward.

CAUSE OF PROGRESS.

It is worth while to ask what has caused this rapid development? what influences have been at work aiding us to reach this high position? Certainly every one looking at the past history of Ontario will admit that much of the progress is due to the liberal treatment that our interests have received at the hands of the Provincial Government. The various

AGRICULTURAL SOCIETIES,

headed by the Provincial Association, have undoubtedly done much in the past to stimulate and encourage the farmer to improvement all along the line—in the tillage of his fields, in the use of labour saving implements, and in the care of his flocks and herds. Those societies are liberally aided by the government. Last year the total amount of grants made them was about $7,000, and it is quite true that many of them could not have existed but for the help thus received. In addition to the general and given to agricultural societies special attention has been paid to that most important interest, fruit growing. Through the grants made to the Fruit Growers' Association, the Government has placed the great field of horticulture on a basis unsurpassed on the Continent for enterprise and success. So, also, in regard to

THE DAIRY INTEREST.

The continued aid given to the Dairymen's Association has enabled much to be done in the way of scientific research, and the practical application of knowledge so acquired. As a consequence, the cheese industry of Ontario compares favourably now with that of any State in the neighbouring Union. The cash value of cheese produced in the Province last year alone was not less than four million dollars. Coming to a later period the Government has devised means and made liberal provision for the

DRAINAGE OF THE LAND

of our country. This is admitted on all sides to have been a most important step. Much of our land has been improved—many thousands of acres have been brought into a state of cultivation, and the Government has placed it within the reach of large numbers of farmers to double the produce of their lands by taking advantage of the provisions of the Drainage Acts.

OUR AGRICULTURAL COLLEGE,

and Experimental Farm at Guelph are doing excellent service in the promotion of a generally improved husbandry. The practical fruits to flow from this institution—while to some extent seen from year to year—can only be properly estimated in its education effects in the future. The degree of success already attained is highly gratifying; and, compared with similar efforts in other countries, the results are a matter of just national pride. The college is worthy of our Province. Its reports are eagerly sought after by farmers, and through them much useful agricultural information is being annually distributed. Above and beyond all these we point with the utmost satisfaction and delight to the appointment of

THE AGRICULTURAL COMMISSION.

Perhaps no other act of the Government has met with greater approval, or has been more thoroughly useful to the whole country. The report of that Commission has stimulated and incited our farmers everywhere to a degree hitherto unknown. Undoubtedly its enquiries and researches, which have been far-reaching and exhaustive, will form the basis of further legislative action in the future. We have two excellent instances this year in the Bills to establish Public Creameries and to encourage the planting of trees on highways and boundary lines. Following closely upon the work of the Commission, and growing out of it, has been the establishment of the Bureau of Industries, whereby much valuable information in the shape of statistics relating to crops and live stock is collected and published. The reports of the Bureau have already commanded attention in other countries, and will certainly do a great deal to put our Province before the world in the high position it deserves to occupy. We might also refer to the measure of the Government giving to farmers their just rights in the delivery of their produce in the centres of trade, free from the imposition of vexatious market fees.

THE CONCLUSION.

The undersigned are convinced that a Government which has thus been so persistent and so zealous in aiding and promoting this great interest of agriculture, among others in our Province, will not fail in the future to take still further steps in the same direction.

We desire to record our own high appreciation of the Government's efforts, and we feel that it is our bounden duty by every honest effort to aid in keeping its members in their present position of confidence in our Province.

We confidently appeal to our brother farmers for their hearty support in to attain this end, being assured that while we point with pride to what has been done for the advancement of agriculture, every other interest has been equally well guarded and fostered. The Government of Mr. Mowat has always combined

LIBERALITY WITH PROGRESS

and wise economy. In proof we need only say that notwithstanding the large increase of population during the past eleven years, and the consequent additional expenditure necessary for the administration of justice; the education of the people, the care of the insane, the training of the deaf, dumb and blind, &c., the finances of the Province have been so well managed that the Treasury can to-day boast of a surplus of nearly five millions of dollars. And this, too, after distributing a very large sum (over three millions of dollars) among the municipalities, and giving an equal large sum for aiding the construction of new lines of railway. A Government with a record like this deserves to be warmly supported, and we feel sure that the farmers of Ontario will cheerfully do their part in sustaining it."

PUTTNER'S EMULSION.

The medicinal properties of Cod Liver Oil have long been recognized as superior to any of the agents employed in the cure or arrest in the incipient stages, of affections of the Throat, Lungs, &c. Modern science has taught that this valuable substance may be advantageously combined with Phosphorus, Lime Soda and other medicinal articles in such a way as to make each and all more thoroughly effective than if employed alone. The inventor of Puttner's Emulsion has made the matter of combining these elements a study, and has evolved from his studious experiments the combination which is denominated Puttner's Emulsion of Cod Liver Oil. In another column will be found the advertisement of the Puttner Emulsion Co., accompanied by certificates as to the merits of their preparation, which cannot be doubted. A careful perusal of these is invited. A trial of their emulsion can be made through any druggist in the Dominion. See that you get it, "Puttner's" when you ask for it.

Oh, What a Cough!

Will you heed the warning. The signal perhaps of the sure approach of that more terrible disease consumption. Ask yourselves if you can afford for the sake of saving 50 cts. to run the risk and do nothing for it. We know from experience that Shiloh's Cure will cure your cough. It never fails. This explains why more than a million bottles were sold the past year. It relieves croup and whooping cough at once. Mothers do not be without it. For lame back, side, or chest, use Shiloh's Porous Plaster. J. G. King, wholesale and retail agent.

Burns and Scalds.

Are promptly cured as well as all flesh wounds, sprains, bruises, callous lumps, soreness, pain, inflammation and all painful diseases; by the great Rheumatic Remedy, Hagyard's Yellow Oil. For external and internal use. Price 25 cents.

Horsford's Acid Phosphate.

For Nervousness, Indigestion, etc. Send to the Rumford Chemical Works, Providence, R.I., for pamphlet. Mailed free.

PEOPLE WHO READ AND REFLECT, after reading upon the many published testimonials regarding Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure, can scarcely fail to perceive that evidence so positive and concurrent could not be adduced in behalf of a remedy of doubtful efficacy. The facts proven by such evidence are, that it roots out impurities of the blood, restores digestion, enriches the circulation, and regulates the bowels and liver. SAYE DRYDEN.

Home Testimony.

Many hundred recommendations similar in character to the one given below have been received, and give proof of the great value of NERVELINE as a pain remedy; try it:

ATHOL, Feb. 20, 1879.

We hereby certify that we have used "Nerveline" in our families, and have found it a most reliable remedy for cramps in the stomach, also for headache, and externally for rheumatic pains. No house should be without this invaluable remedy.

Mr. Alexander Robinson, of Exeter, in writing about one of the most popular articles, and one that has done more good to the afflicted than any other medicine has during the short time it has been in existence, says: "I have used four bottles of Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure, and have been cured of dyspepsia that troubled me for over ten years. Part of that time I had it very bad, and I was at considerable expense trying to get relief; but this excellent medicine was the first and only relief I had received."

MR. W. A. WISE, Westport, writes: "I wish to inform you of the wonderful results which followed the use of Northrop & Lyman's Emulsion of Cod Liver Oil and Hypophosphites of Lime and Soda. A cough of six months' standing had reduced me to such an extent that I was unable to work. I tried many remedies without effect; at last I used this Emulsion, and before three bottles were used, I am glad to say I was restored to perfect health."

J. S. WITHERELL, writing from Winnipeg, says: "I can say more about Puttner's Emulsion now than when I saw you last in Toronto. My health is much improved, and I am free from headaches or any other aches, having only used two and a half bottles of your Phosphatine. For sale by all druggists.

We have a speedy and positive cure for catarrh, diphtheria, canker mouth and headache, in Sanford's Catarrh Remedy. A nasal injector free with each bottle. Use it if you desire health and ease from trouble. Price 50 cents. J. G. King, wholesale and retail agent.

BEAUTY IN COURT.

Miss Louisa Montague Suing Adam Forepaugh, the Circus Man—Little Scene in Court.

Philadelphia, Feb. 4.—Louisa Montague, Forepaugh's $10,000 beauty, insisted on being transported from town to town in a section of a parlor car. Adam Forepaugh refused to consent to any such arrangement. She consequently refused to travel with Mr. Forepaugh's show and instituted a suit to recover her salary for every week the show journeyed through the country in 1882.

After being sworn she was allowed to sit near her lawyers. She told how, in 1881, Mr. Forepaugh advertised that he would give a prize of $10,000 for the most beautiful woman he could secure to ride an elephant and impersonate Lalla Rookh in the street pageant of his show. She applied, and was engaged at a salary of $100 a week. She remained with the circus during the season of 1881, and contracted to fill the same position in 1882 for $75 a week. She says that Mr Forepaugh contracted to give her a separate room in the parlor car when the company traveled. In the spring of 1882 she went to the winter quarters and Mr. Forepaugh informed her that she would have to travel in a state room with a number of other women. She declined to room with anyone, because it was not according to contract. Mr. Forepaugh then told her that he didn't want her, as he had another beauty in her place for $15 a week.

"Did not Mr. Forepaugh tell you that you would have to room with Miss Renz, a performer who received $500 a week?" Mr. White asked on the cross-examination.

"No, sir," replied Miss Montague very emphatically. She admitted, however, that during the season of 1881 she had occupied a stateroom with two or three women performers.

Mr. White paused, stroked his beard thoughtfully a moment or two, and then in quiet tones said: "Miss Montague, when Mr. Forepaugh informed you that he had changed the interior of the sleeping cars, and that you would have to room with Miss Renz, didn't you reply, 'I'll see you damned first?'"

"Sir!" retorted the beauty, flaring up. The lawyer repeated the question with great composure, and she answered: "No, sir, I never use such language."

Mr. Shakespeare revived her with a glass of water.

A Great Cause of Human Misery is the Loss of

MANHOOD

WE have recently published a new edition of Dr. Culverwell's Celebrated Essay on the radical and permanent cure (without medicine) of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, etc., resulting from excesses.

Price, in a sealed envelope, only 6 cents or two postage stamps.

The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' successful practice, that alarming consequences may be radically cured without the dangerous use of internal medicine or the use of the knife; pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

This lecture should be in the hands of every youth and every man in the land.
