United States War And Great Britain's

Britain has decided against an immediate resumption of civilian goods production, such as the W.P.B. has ordered in the United States. There are several reasons for this decision, but a major one is that the United Kingdom must keep production up for its intensified war against Japan when Hitler is beaten, says The Kitchener Daily Record.

Here is an answer to those Americans who have questioned Britain's promises, who have argued that the war against Germany is not "our war," and that the United States should have concentrated on Japan.

Britain has given notice that her long-suffering people will do without a little longer so that when the time comes she may be able to turn her full weight of labor, arms and men to the Pacific for victory in the common cause.

LOOKS BAD — BUT ISN'T

No, this B-25 medium bomber is not on fire. The flames and smoke streaming from it are from rocket take-off units, used to assist heavily laden planes into the air from short runways. Photo was taken at Wright Field, Dayton, Ohio, where the AAF Material Command made successful tests of the device.

West To Harvest Record Wheat Crop

Western Canada is sharpening up its sickles to cut one of the largest grain crops on record, says the Lethbridge Herald. Variously estimated from 450,000,000 bushels to over 500,000,000. It will be a most satisfactory crop.

It is well that the season has turned out so favorably. There was a time in the spring when, following an abnormally mild dry winter, it looked very doubtful for a normal grain crop this year. Most farmers would have been prepared to settle for a 12-bushel average. Instead of that the average for the whole West will be 20 bushels or better. The Allied war effort is not going to be hampered through shortage of food supplies so far as Canada is concerned.

Nazis Scuttle Fleet In Bay of Biscay

The German fleet in southwest France, both naval and mercantile, has been scuttled in the Bay of Biscay and in the Gironde River channel near Bordeaux, it was learned recently.

The fleet consisted of a number of torpedo boats, submarine auxiliary ships, light submarines, armed trawlers and many coastal freighters.

The freighters could be seen from the Spanish shore today. They put out from Bayonne and St. Jean de Luz for a few miles and were scuttled by their crews, who went back ashore in lifeboats.

The Germans evidently chose not to risk the perilous voyage through the English Channel to home bases in light ships. Their heavier U-boats based on Bordeaux, left some days ago.

Nazis Drop Potato Bugs On England

The Germans used potato bugs as a forerunner of the secret weapon V-1 flying bombs, a scientist of the Ministry of Agriculture said recently.

He said German planes dropped Coorado beetles in an effort to damage the 7,000,000 ton British potato crop.

Odd specimens of the beetle prevalent in Germany, were discovered in southern England.

INCREASE PIG LITTERS . . . STOP BREEDING TROUBLES

Feed Rex Wheat Germ Oil to your Sows and Boars. It's the scientific way, used by hundreds of successful hog breeders, to overcome common non-organic breeding troubles, increase the size of litters, secure stronger, healthier pigs, promote easier farrowing and get slow breeders settled promptly.

Rex Oil supplies, in a concentrated and stable form, the nutritional factors so essential to proper functioning of the reproductive system.

Rex Oil is economical—a little goes a long way—a few pennies worth now will mean EXTRA DOLLARS in profits for you when market time comes. Start using Rex Oil right away... you'll be amazed at the results. Available at feed, seed and drug stores everywhere.

"Our Family Regulator is DR. CHASE'S KIDNEY-LIVER PILLS"

Have You Heard?

In the middle of their shopping tour, two women stopped for a chat.

"And what's your husband doing now?" asked the first, presently.

"Just sitting round and telling everybody what Hitler will do next," was the reply.

"Then he's a bit of a prophet?"

"Not much! So far as I'm concerned, he's a dead loss!"

—o—

A Scotsman recently played a piano for 48 hours without stopping. He is then said to have returned the instrument to the dealer who had let him have it on two days' approval.

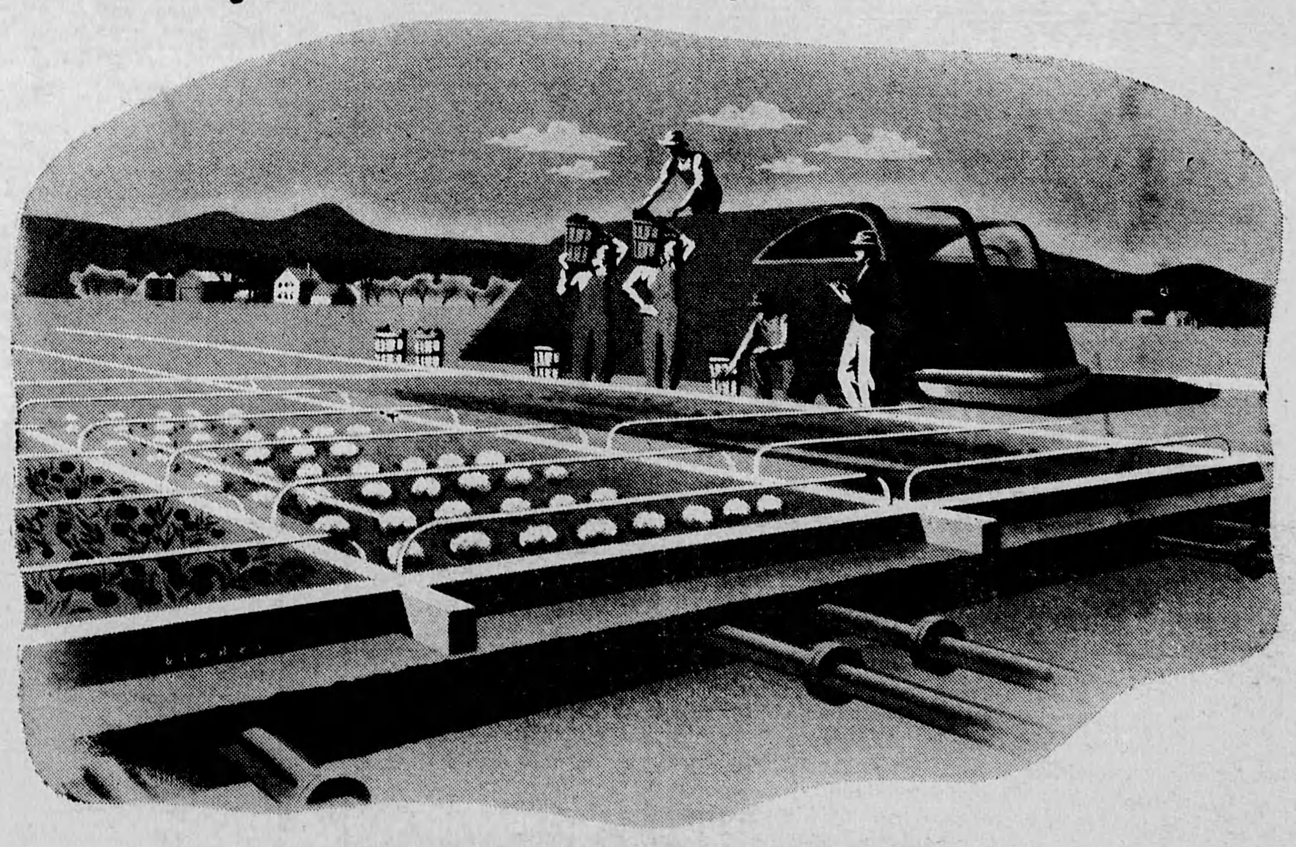
—o—

The newly-weds had just got off their train.

"John, dear," said the bride, "let's try to make the people think we've been married a long time."

"All right, honey," was the answer, "you carry the suitcase."

FRESHER, CHEAPER FOOD for your table
by *men who think of tomorrow*



TOMORROW'S EVERGROWING GARDENS . . . Why should garden-fresh vegetables be available only in summer? Why should rich, ripe strawberries be a luxury in winter? *Men who think of tomorrow* are doing something about it. In Scotland, where seasons are short, it has been possible to grow six to eight crops of vegetables a year by heating truck gardens with underground steam pipes — under glass in winter, open to the air in summer.

MEN WHO THINK OF TOMORROW are planning to feed the world better than it has ever been fed before, to make it healthier than ever before. It is a glorious future to which we may look . . . *but only after the war is won!*

Are you working at your "war job" as hard as you can?

Are you saving and turning in wastepaper to help meet the serious shortage this country faces in the manufacture of containers for war materials?

Are you collecting and turning in every last drop of fat from your kitchen to help feed the hungry machines that turn it into TNT?

Are you heeding the Government's plea to curtail your personal travel so that troops and supplies can move freely over our already congested transportation systems?

Have you added your blood to that of millions of others to provide life-saving plasma for our wounded?

And have you increased your purchases of War Savings Certificates and Victory Bonds to the limit of your ability . . . and are you holding on to them?

Only by working as hard as we can at these and scores of other "war jobs" will we be sure of Victory . . . and the ever-ripening fruits of Victory. Let us *all* be MEN WHO THINK OF TOMORROW!

★ **THE HOUSE OF SEAGRAM** ★

All Seagram plants in Canada and the United States are engaged in the production of high-proof alcohol to help speed the war to a victorious end. High-proof Alcohol for War is used in the manufacture of Smokeless Powder, Plastics, Compasses, Drugs and Medicines and many other wartime products.
