A RHYME ON THE RAIL.

He comes on the car with a strange sign,
His speech AND a curious book;
He stops AND a minute (much to the annoyance of some) to read the sign, displayed with diagrams and cards

With a wonderful, fine, winning way he begins
I know that you need, do this flow on a seat
And impatiently turn with his book.
"Do diseases trouble you? Pains, I mean? Do you feel
Thus, who knows the early prey worn

The outer signs gets on in little for fair chain,
Five lines with mentally he
And wishes he were in the jaunty dog's place,
As he leaves a disturbed sigh.

He throws up the book, and quick as a flash
The page flies open mentally he
It may sign to its dark, then, is drawn from the seat,
And a way through the window is gone

A moment of affright. A moment's air sight,
A moment's moment in the
Who ran was with angry, but pained dog pet
That is left in the front bulkhead

Two lemons that grabs one the rail and he side
The lemons are all dry as hot lime
His strange sign he has thrown from the car
He has taken the pattern dog's place

Lord Rosebery has resigned the Under Secretaryship for the Home Department, and been succeeded by Mr. John Tomlinson Hibbert, M.P. for Oldham and Parliamentary Secretary to the Local Government Board. The resignation is attributed to the existence of a feeling that the Under Secretary should be a member of the House of Commons.

Mr. and Mrs. Mackey and their pilgrimage from Paris to Moscow attracted great attention, and the European press gave much attention to the magnificence of Mr. Mackey's private car, and the costly Worth dresses which were contained in Mrs. Mackey's private baggage car. Even at Moscow, neither Oriental nor imperial splendor could throw Mrs. Mackey in the shade.

"The best husband I ever met," says a living writer, "came out of a family where the mother, a most heroic and self-denying woman, laid down the absolute law, 'girls first'—not in any authority, but first to be thought of as to protection and tenderness. Consequently the chivalrous care which these lads were taught to show to their own sisters naturally extended itself to all women.

Fourteen years ago Charles Lewis, then of Lockport, had the initials of his "best girl" engraved in two 10-cent pieces and manufactured into ear-rings. She, not liking them in that shape, broke off the hooks and spent the dimes. Recently her brother in Chicago received one of them in change, recognized the coin and forwarded it to the owner, who is now Mrs. Lewis, of Suspension Bridge.

A convict St. Vincent de Paul Penitentiary took his. In evidence the other day a convict named Wm. Hynes said that on the occasion of the revolt of May 3rd one of his chains had been broken for some time, and that he himself had filed the other through. He produced in Court the file he had used, saying that it had been in his possession ever since the occurrence. When he could keep a file all that time on his person and produce it in Court the evidence of the other prisoners that the guards slept at their posts and left their cell doors open, was not regarded as strange.

HOLLOWAY'S PILLS.—The changes of temperature and weather frequently upset persons who are most cautious of their health, and most particular in their diets. These corrective, purifying, and gentle aperient Pills are the best remedy for all derangements of the digestive organs; they augment the appetite, strengthen the stomach, correct biliousness, and carry off all that is useless from the system. Holloway's Pills are a compound of rare balsams, combined with bland matter, and on that account are peculiarly well adapted for the young, delicate, and aged. As a household medicine has gained fame to our race, so will it preserve it in the future, by its unerring and invigorating qualities, and its innocuity of doing harm.

Rev. Dr. Elliott has been elected representative of the Montreal Conference in the Central Board of Missions.

Both Revs. H. F. Biand and LeRoy Hooker are opposed to the present basis of union. Rev Dr. Elliott is also opposed to the basis. At Conference he said, however, that he was in favour of any kind of union founded in love and kindness, justice and wisdom. There had been a standing resolution for the union of Methodism for eighteen years in this Church. He was not now sure that peace would be perpetuated if the union proposed were carried out. A few more could disturb again as a few had done before. This Church had never caused strife or disturbed peace. Rev. Mr. Hagar boldly endorsed union. He did not think there were any legal objections in the way, and it was certain that a united General Conference would guard well all those points. As to the discordant elements he did not think they were such as to constitute a good objection to the proposed union. He deprecated the existence of several Methodist bodies in places where they should not exist. The perpetuation of existing divisions would prove, as it had proved, a waste of men and money.

HIGHER EDUCATION.

We have been asked to publish the subjoined opinion of the *Medical and Surgical Reporter*, Philadelphia, edited by that singularly exclusive chap, the male doctor

"It is not the true womanly woman, but rather the masculine woman, who hankers after this higher education. We are speaking in all sincerity, from a scientific standpoint, and mean no disrespect to any one. We clearly recognize two distinct types of womanhood, between which all degrees of each are to be found. On the one hand, the timid, confiding, trusting woman, who, after completing her school or convent education, soon comes to realize that her mission in this world is a domestic one, with all the mingled trials and pleasures which that word implies. On the other hand, we see the self confident, self assuring, self reliant and fearless, masculine woman, who feels irresistibly impelled to push forward into the realms of science, and for whom the domestic duties have but a secondary attraction. These two types are admirable, the one lovable, the other grand and noble. The first never gives a thought to the "higher education of women," the second desires and demands it. Let her have it. If she be capable she will make her mark; if she be not, Darwin's beautiful law will come into play, and she will disappear. In a word, the number of women who demand scientific education are comparatively few; they possess many masculine characteristics, and are entitled to masculine privileges. If you give them the chance they may, perhaps, fulfil their earthly mission; if you deny them, you do them an injustice, by refusing a request the granting of which could do them no harm. There again, we say, grant their request."

We say, too, let the "self confident," "self asserting," "noble" woman have the education. This is what men like the editor of the *Reporter* won't do, however, gracefully. They fight against woman's admission to colleges and the profession; and while saying "Let her have it" and make her mark, are doing all they can to build up the wall of prejudice against her. For a while, if they are sincere, they will say nothing at hap-hazard but await the result of the experiment.

Like all sterling remedies, Northrop & Lyman's Vegetable and Dyspeptic Cure deserves a fair trial. It would be absurd to suppose that this or any other medicine of kindred nature could produce instantaneous effects. For the thorough removal of chronic dyspepsia, constipation, liver complaint, and other ailments to which it is adapted, its use should be continued some time, even after the chief symptoms are relieved. That it then effects complete cures is a fact established by ample and respectable evidence.

BE ASTONISHED in time, and do not allow what may appear to you as a simple back ache now, to run into a disease of the kidneys, which is certainly prove fatal in the end. Dr. Van Buren's Kidney Cure will at once ease your pain and positively prevent those unfortunate results. Take it at once. Any druggist will have it.

Mrs. E. H. Perkins, Creek Centre, Wayne Co., N.Y., writes: "She has been troubled with asthma for four years, had to sit up night after night with it. She has taken two bottles of Dr. Thomas' Eclectric Oil, and is perfectly cured. She strongly recommends it, and wishes to act as agent among her neighbors."

"SECTION B."

Action against the "Globe" Threatened—Letter to the Manager—His Reply.

The following letter was sent to the General Manager of the *Globe* on Wednesday, and printed in yesterday's edition of the Toronto organ

"John Cameron, Esq., General Manager of the Globe Printing Company, Hon. J. H. Angus, James David Edgar, Esq., James Oliver, Esq., and Hart Massey, Esq.

"GENTLEMEN,—We are instructed by Mr. John Shields to take proceedings against you for libel published upon him, him and Mr. J. Macdonald in an article contained in the *Globe* newspaper of Friday, the 1st June last, in reference to their use of the moneys of the firm of Manning, Macdonald, McLaren & Co. for corrupt practices in elections. Mr. Shields and Mr. Manning have replied over their own signatures to your charges, and Mr. Macdonald is at present in the North West, where he has not yet had an opportunity of reading the article in question, or communicating in reference to it; but notwithstanding the replies already published the *Globe* newspaper has continued in subsequent articles to repeat the charges in an altered and modified shape.

"We are instructed that the articles were concocted by the several parties other that the *Globe* Printing Company, to whom this letter is addressed, and were written by Mr. Anglin, and we therefore purpose to join all as defendants in the proceedings we are instructed to take.

"Unless the libellous charges against Mr. Shields are withdrawn and an adequate apology published forthwith we shall take such proceedings in the matter as we may be advised.

"We are, Sirs,
"Your obedient servants,
"CAMERON & McPHILLIPS.

"Toronto, June 5, 1883.

To the foregoing the following reply has been made on behalf of the *Globe*

In reply I beg to say that if any action is brought against the *Globe* it will be prepared to defend itself.

"Your obedient servant,
"JOHN CAMERON,

Oh, my Back!

Is there a miserable, weakening pain in the small of the back? Is urination painful? Do you have palpitation of the heart? Do strange, indescribable feelings creep up your back and sides? Does the least exertion weary you? Does your urine show brickdust or albuminous deposit? Does any sudden fright cause an intense, sharp pain in the small of your back? Do you have an aching in the groin? Is your memory impaired? Is your breath short? Are there shooting pains about your vitals? Are you becoming dropsical?

These are all symptoms of kidney disease. Be on your guard against them. If let run it may end in Bright's Disease, which is sure death.

Your best course is to procure at once a bottle of STEPHEN AND IRON BITTERS costing only $1.00. It will cure any form of Kidney Complaint, except Bright's Disease, it will relieve the symptoms and cheer the evil day sometimes indefinitely.

STEPHEN AND IRON BITTERS is a medicine as harmless as water. The world has not seen its equal as a cure for diseases which attack the Kidneys and for the complaints to which females are alone liable. It is of more value than any medical compound known to the medical faculty.

Sold by all Druggists and at Depot 412 St. Paul St. West, Montreal, Price $1.00.

IMPORTANT TO STEAM USERS AND ENGINEERS.

How to Keep Boilers Clean.

FOSTER'S PATENT AUTOMATIC BOILER CLEANER, when properly applied to a steam boiler, never fails to keep it free from

MUDDY DEPOSITS AND SEDIMENTS

from water before they become baked into scale. The Cleaner is automatic and certain in its action, and will outwear a new boiler. A boiler kept clean obtains a saving in fuel and repairs, as well as a reduced liability to explosions.

Having the agency for this section of the country, we are prepared to fit them up and guarantee them to be all the parties claim for them.
