An accident of unknown origin befell Mr. Jas. Batchelor on Monday morning of last week. Mr. Batchelor had gone in search of his cattle, which had strayed from his premises. When found, he was in a dazed condition. Belief that the accident occurred on No. 10 Highway is caused when his hat was found on the roadside in front of the former Aaron Jordon farm. Mr. Batchelor had been riding horse back and was accompanied by his dog. Though dazed he still had hold of his horse. Both he and his dog were injured. Injuries sustained by Mr. Batchelor were a dislocated and splintered shoulder, shock and general shaking up. We hope for a speedy and complete recovery.

NEW IRON ORE MINE

Fifty million tons of iron ore have been proven on the property of Steep Rock Iron Mines Limited, located just a few miles north of Atikokan, Ont., on a specially constructed three mile line of the Canadian National Railways. Geologists report that a further considerable quantity of ore and some large deposits of manganese will also be available. N-w 50-ton all steel Canadian National ore cars have already been brought in to the loading platform of the openpit mine and are awaiting the first shipment. As this new mine comes into full production, it is estimated that five million tons will be its yearly output.
