Hancock's Inspirator

IS THE MOST ECONOMICAL APPLIANCE KNOWN for feeding boilers or pumping purposes on account of the great range of volumes and the small expenditure of steam required for working it. It is intended to take the place of Pumps and Injectors and may be used instead to great advantage. It differs material both in its

Construction & Working Qualities

from the class of boiler feeders known as injectors—inasmuch as it has one set of tubes for lifting and another set of tubes for forcing water, a combination entirely new, reliable and efficient. They are simple to operate, always ready for use and altogether a very reliable feeder for boilers.

PAMPHLETS OF INSTRUCTION furnished on application, also testimonials if required. We guarantee every Inspirator according to recommendation or no charge.

BE WISE

And SECURE YOUR BUILDINGS and contents from the effects of lightning, so prevalent in this country, by erecting thereon the LONDON GLOBE PATENT COPPER LIGHTNING ROD, the safest and best known to scientific men, as shown by the late practical test in London, made by W. M. CAIRNS, ELECTRICIAN, LONDON, MANAGER DOMINION TELEGRAPH COMPANY, and also during the month of August last when in or about $75,000 worth of property was destroyed by lightning in the County of Middlesex alone, as well as in many other places through the Dominion, yet not one case occurred where these rods were set up, although thousands were in use all over this country. The COMPANY HAS OFFERED $500 to any person who can prove otherwise, and the DOMINION INSURANCE CO'Y, OF HAMILTON, will now insure property where these rods are erected for ONE-TENTH LESS, when application is made by this Company or their authorized agents. One or two good reliable agents wanted. Apply to J. BROKENSHIRE, Head Agent for Kingston District.

Ayer's Sarsaparilla!

FOR PURIFYING THE BLOOD.

HOPE

This compound of the vegetable alteratives, Sarsaparilla, Docks, Stillingia, and Mandrake, with the Iodides of Potash and Iron, makes a most effectual cure of a series of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humors in the system, that undermine health and settle into troublesome disorders. Eruptions of the skin are the appearance on the surface of humors that should be expelled from the blood. Internal derangements are the determination of these same humors to some internal organ or organs, whose action they obstruct, and whose substance they disease and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as *Ulceration of the Liver, Stomach, Kidneys, Lungs, Eruptions and Eruptive Diseases of the Skin, St. Anthony Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Ulcers and Sore Rheumatism, Neuralgia, Pain in the Bones, Side and Head, Female Weakness, Sterility, Leucorrhea arising from Internal Ulceration and Uterine Diseases, Dropsy, Dyspepsia, Emaciation and General Debility.* With their departure health returns.

WILL YOU EXCHANGE

a case of Dyspepsia or Biliousness for 75 cents? It is awfully unwise to agonize under the many ailments arising from Dyspepsia, Indigestion, Disordered Stomach and Liver, when this offer is made to you in your own home in all sincerity, with an absolute certainty of curing you.

ZOPESA (from Brazil) cures Dyspepsia and Biliousness. A single dose relieves; a sample bottle convinces; a 75 cent bottle cures.

It acts directly upon the Stomach, Liver, and Kidneys. Cleansing, Correcting, Regulating, Zopesa gives energy and vim to the Brain, Nerve, and Muscle, simply by working wonders upon the Digestion, and giving activity to the Liver.

Cut this out, take it to any dealer in medicines, and get at least one 75 cent bottle of Zopesa, and tell your neighbor how it acts. It is warranted to cure Dyspepsia and Biliousness.

THE BUILDERS.

All are architects of Fate,
Working in these walls of Time;
Some with massive deeds and great,
Some with ornaments of rhyme.

Nothing useless is, or low;
Each thing in its place is best;
And what seems but idle show
Strengthens and supports the rest.

For the structure that we raise,
Time is with materials filled;
Our to-days and yesterdays
Are the blocks with which we build.

Truly shape and fashion these;
Leave no yawning gaps between;
Think not, for no man sees,
Such things will remain unseen.

In the elder days of Art,
Builders wrought with greatest care
Each minute and unseen part;
For the Gods see everywhere.

Let us do our work as well,
Both the unseen and the seen,
Make the house where Gods may dwell,
Beautiful, entire, and clean.

Else our lives are incomplete,
Standing in the walls of Time,
Broken stairways, where the feet
Stumble as they seek to climb.

Build to-day, then strong and sure
With a firm and ample base;
And ascending and secure
Shall to-morrow find its place.

Thus alone can we attain
To those turrets, where the eye
Sees the world as one vast plain,
And one boundless reach of sky.

WAR PREPARATION.

England Well Prepared for Conflict—Facilities for Sending out Supplies—Splendid Force.

England was never better prepared to embark in any sudden enterprise. With less than a month's notice the Admiralty, without stripping any of the more remote naval stations, and especially without indenting upon the squadrons employed in Asia, which are considerable, but fully employed, has been able to send out the fleet which has just destroyed fortresses defended by 1,600 heavy guns very bravely served, has, in addition, strengthened the Mediterranean and Channel squadrons, and has the reserve squadron now ready as a reinforcement in case of necessity. It has, moreover, still many large ships uncommissioned, besides one or two ordered to be made ready at once, which surpass in strength anything now afloat. The

with stores, and without entering into details, which we may give hereafter, it is calculated that by August 15 the Admiralty will have afloat, providing and ready, in European waters a fleet with which it would not be foolhardy to encounter the fleets of any two powers in combination. It has enough sailors to work and fight them, enough material for a campaign, while the ships themselves, as the encounter before Alexandria shows, are in the highest condition of efficiency. Moreover, the dockyards have been so completely organized that they can work with almost any rapidity required, and send a first-class ironclad to sea, say of 6,000 tons, with complete material for a long bombardment on a notice of less than six working days. This is

A SPLENDID STATE OF PREPARATION

for the fleet, which Mr. Ward Hunt called "a phantom," and the War Department, though working on a smaller scale, is not behind hand. Mr. Childers, with 85,000 men to keep in Ireland as a necessary garrison in time of excited feeling, has a complete *corps d'armee* of 25,000 men ready to be shipped to Egypt on receipt of orders, has a second *corps d'armee* of the same strength so nearly ready that after the order summoning the reserves is out it could be shipped within four days, and in a fortnight, with help from the militia, could produce a third, both these two latter being largely made up of the full grown, seasoned and trained men of the reserve. To produce a fourth it would be necessary to reduce the Irish garrison, to call out the militia, to offer heavy bounties, and to strip Gibraltar and Malta of regular troops, but it could be done on a sufficient emergency, while the depots, as usual in time of war, would be rapidly filled with recruits. This force, amounting, before the fourth *corps d'armee*, is called out, to 75,000 men, is independent of any which could be spared from India, whence 10,000 men have been already ordered, with 15,000 more in reserve. Of course no such forces will be employed, the total agreed upon being 18,000 from Europe, and 10,000 from India; but they are there if the Sultan should see fit to challenge the

of the Nile. These are not large forces when judged by the Continental standard, and part of them are very young; but since 1815 Great Britain has never been in such a state of preparation, or ably, with so little sense of strain, to send out an army at such short notice. The army is quite sufficient to conquer Egypt, even if the Delta were defended by Turkish troops as well, and it could if called upon for serious fighting, be kept steadily refilled, though not so steadily as it would be were the system of reserves in the full working order which it will ultimately attain. It is not desirable to keep any immense general service force in this country, and, indeed, it could not be done without a conscription, to which, except for the purpose of resisting invasion, the people would never submit. Still, to be possessed of a sufficient fleet, actually afloat and not on paper, and of the means of dispatching 50,000 men to any threatened point, is for a power which desires no conquests, and holds in Europe but one place with a land frontier no insufficient state of preparation.

FUNCTIONAL heart troubles are commonly the outcome of impaired general health from depraved nutrition, and are peculiar to nervous, irritable temperaments. Palpitation, intermitting, or regular pulse, difficulty of breathing and head symptoms are reflex or sympathetic from stomach derangements, especially that form of dyspepsia with acidity or heartburn, flatulence, irregularity of bowels, high-colored urine and brick dust deposit. Many of these cases have been entirely relieved by the prolonged use of WHEELER'S PHOSPHATES AND CALISAYA fortifying the nervous system and restoring the digestive apparatus to its normal activity.

The Rev. Chas. E. Piper, formerly of Pittsfield, N. H., but now of Wakefield, R. I., writes: "I have used Baxter's Mandrake Bitters in my family for over two years, and as a result have not called a physician in the whole time. My wife had been an invalid for two years, but these Bitters have cured her.
