JUDICIAL SERVICE.

The Salaries and Emoluments of the Judges to be Readjusted.

On an early day the Minister of Justice will move the House of Commons into Committee of the Whole to consider these resolutions:

1. That the salaries of the Chief Justice and puisne judges of the Supreme Court of Prince Edward Island shall be as follows, instead of their present salaries: Chief Justice, per annum, $4,000; two puisne judges, each $3,200.

2. The salaries of the hereafter named County Court Judges will be: Judge of York County Court, Ont., and of St. John County Court, N.B., $3,000 each per annum; the counties or districts in Ontario of which the population exceeds fifty thousand, $2,000 per annum for the first three years, $2,400 per annum for the second three years, $3,000 per annum thereafter. The period of a judge's service now in office will be counted, but the increase of salary is not to take place retrospectively. To each junior County Court Judge $2,000 per annum for the first three years, and $2,400 per year thereafter, the period of junior judges' service now in office to be counted, but the increase of salary not to take effect retrospectively.

3. That an additional sum not exceeding $100 per annum be allowed to such judges and junior judges of County Courts in Ontario, Nova Scotia, New Brunswick and Prince Edward Island as may be fixed by the Governor in Council, reference being had to the time occupied in travelling and the distance travelled.

Gladstone a Book Worm.

Mr. Gladstone is an ardent lover of books and not only keeps pace with the literature of the day but finds time even during the period of Cabinet councils to frequent the little old second-hand book store in London. Not long ago he was discovered in a shop where he had been a customer for fifteen years. Presently a crowd gathered at the window-less front, staring at the Prime Minister of England peering around the walls and from time to time burying his head in the leaves of a dirty book. He paid no attention to the throng which presently completely blocked up the narrow thoroughfare. The bookseller at last tempted him into an upper room by the promise of a fresh collection of books, and thus he was withdrawn from the public gaze. Among the second-hand books on sale he found a copy of that somewhat sloppy "life" of himself which Cassells recently published and this he bought. He also selected one or two old copies of Lord Beaconsfield's novels, which he could scarcely be going to read for the first time.

Ho! for the West.

A heavy tide of emigration to Manitoba and the North West Territory from Ontario and Great Britain is looked for during the present year. An extensive correspondence is being carried on with intending emigrants by the Manitoba Land Office, that office alone expecting to send through from 40,000 to 50,000 emigrants. Twenty-two agents are employed by this company in England, and seventeen special trains (the first of which will start in the beginning of March) will convey the emigrants to their future home. These will be actual settlers, taking up land and developing the resources of the country.

Line to the Seaboard.

There is a movement on foot in Montreal to obtain a short line to the seaboard, of which various phases have lately been presented. The line will be from Montreal by the Hochelaga Tunnel, if that is constructed, the St. Lawrence and Champlain Railway, South Eastern Railway, and others to the Province Line, whence connection will be made by Bangor, Me., with St. John, N.B. The originators of the scheme hope to connect west with the Canadian Pacific Railway and the Sault line by the Canada Central, and they are also moving for a charter to build a line from Ottawa to Toronto.

Catarrh.

From C. W. Thomas of Brattleboro', Vt. "For ten or twelve years past I have been troubled much of the time with Catarrh, which has kept up a continual irritation of throat and lungs, attended with severe cough. During this time I have tried many of the popular remedies of the day without the least benefit. The past winter I commenced the use of DR. WISTAR'S BALSAM OF WILD CHERRY, the beneficial effects of which have been very great, as after having used three bottles I find myself entirely cured of my disease. The BALSAM has also been used in a severe case of Asthma and Cough which came within my observation, which yielded at once to the remedy. I recommended its use to the afflicted generally."

50 cents and $1 a bottle. Sold by all druggists.

Stop That Cough.

If you are suffering with a cough, cold, asthma, bronchitis, hay fever, consumption, loss of voice, tickling in the throat, or any affection of the throat or lungs, use DR. KING'S NEW DISCOVERY for consumption. This is the great remedy that is causing so much excitement by its wonderful cures, curing thousands of hopeless cases. Over one million bottles of DR. KING'S NEW DISCOVERY have been used within the last year, and have given perfect satisfaction in every instance. We can unhesitatingly say that this is the only sure cure for throat and lung affections, and can cheerfully recommend it to all. Call and get a bottle for ten cents, or a regular size for $1. Sold by all druggists.

PROFITS DIVIDED.

Winnings of the Late Six Days' Walk—Muscle Makes Money.

"To the victors of the spoils," and Campana is not counted among them. A careful account was made up late Saturday night or early Sunday morning of the proceeds of the speculation. Mr O'Leary showed a transcript of the account on Monday, which set forth that the total receipts for gate money during the week was $14,248. Sixty per cent. of this, $8,548.80, according to the original agreement is to be divided among the five leading men Hughes, Albert, Vint, Krohne and Howard. Of this, by an arrangement made by the walkers themselves, John Ennis and Barney Wood are to be paid $500 for representing and guarding the interests of the walkers in the box office. "They counted all the tickets before the management received them and verified the accounts from first to last." Subtracting this, the men have $8,048.80 to divide. Of this Hughes gets $3,219.52, Albert $2,414.64, Vint $1,291.32, Krohne $804.88 and Howard $402.44. Hughes, in addition, gets $1,000 special prize offered by O'Leary for beating the record. The management's share of the receipts, forty per cent. of the gross, amounts to $5,699.20. Their receipts from the sale of bar and other privileges were about $6,000, making their total receipts nearly $12,000. They paid for rent $5,000, for carpenters' work, chairs, stoves, advertising, bill posting and the wages of scorers, markers, ticket sellers and takers, ushers and other attendants, not far from $4,000. Deducting also the $1,000 special prize won by Hughes there is left them about $2,000 to divide. As there are only two of them, Daniel O'Leary and Brian G. McSwyney, the week was not unprofitable to them also.

THE ATTENTION of owners of Farm Property and Residences is invited to the above Pyramid, showing the uniform and sure growth, during the last seventeen of its 27 years of existence, of a fire insurance company whose charter limits its business to that class of property—the **Agricultural Insurance Company,** of Watertown, N. Y. The figures represent the amount set apart at the dates given for the PROTECTION OF POLICY HOLDERS.

Twenty-seven years of patient toil has made this the strongest and largest Company doing an exclusive Dwelling Business in the United States, if not in the world. It now issues 45,000 polices a year. No other like Company can show such growth and increase.

The history of this Company proves that a LARGE business, well scattered, managed with prudence, can be done with a very small profit from each risk, and afford perfect security, which will grow stronger every year.

While nine-tenths of the "Mutual" fire insurance companies, and many of the Stock companies, have failed on account of reckless or extravagant management, or doing too small a business, the OLD AGRICULTURAL, by economy, energy and prudence, has every year added a substantial amount to its Assets, for the indemnity of its patrons, and it now occupies a position in the confidence of the public second to no other Company.

From year to year it spreads the base of its Pyramid and gains strength.

EXTRACT FROM CHARTER.—"*Article 2.* This Company is formed for the purpose of insuring Farmers' Dwellings, Private Residences, Barns and Outbuildings, with their contents, and other property not more hazardous," and is strictly confined to this class of property.

I have used it in Consumption, Asthma, Diarrhœa and other diseases, and am perfectly satisfied with the results."

"Earl Russell communicated to the College of Physicians that he received a despatch from Her Majesty's Consul at Manilla to the effect that cholera has been raging fearfully, and that the only remedy of any service was CHLORODYNE."—See *Lancet*, 1st December, 1864.

CAUTION.—*Beware of Piracy and Imitations.* [illegible]

CAUTION.—Vice Chancellor Sir Page Wood stated that Dr. J. Collis Browne was undoubtedly the inventor of CHLORODYNE; that the story of the defendant Freeman was deliberately untrue, which, he regretted to say, had been sworn to.—See *Times*, July 13, 1864.
