How To Lower Living Standard

One point made this year by Mr. A. N. Mitchell, president Canada Life Assurance Co. which if comprehended widely enough, would save Canada oceans of grief and let us get on with the job of building soundly for a better Canada for all Canadians is this:

"It is time to realize that regimentation ultimately destroys not only individual opportunity and freedom, but leads the hobbled peoples finally into lower standards of living. Assumption of power over the lives and actions of their fellow-citizens by a politically aggressive few in the name of the state — call it Fascism, Nazism, Socialism, Collectivism, State Control, Planned Economy, or what have you — must always lead to some form of autocracy and much lessened individual freedom. The so-called planners must have power to force compliance with their orders, if their plans are to be effective. No Socialist-planned economy can operate without each citizen yielding the planners his previous rights of choice decision and action."

U. S. Rice Crop

Turks Grant Allies Use Of Dardanelles

Authoritative British quarters said last week that Turkey had granted permission to the Allies to ship supplies to Russia via the Dardanelles, thus eliminating the long haul of the old Persian Gulf supply route.

Turkey recently broke diplomatic relations with Japan, sending the last official Axis listening post out of the country and depriving the enemy of bases for Japanese agents who might report on the movement of Allied supplies through the Straits bewteen the Mediterranean and Black Seas.
