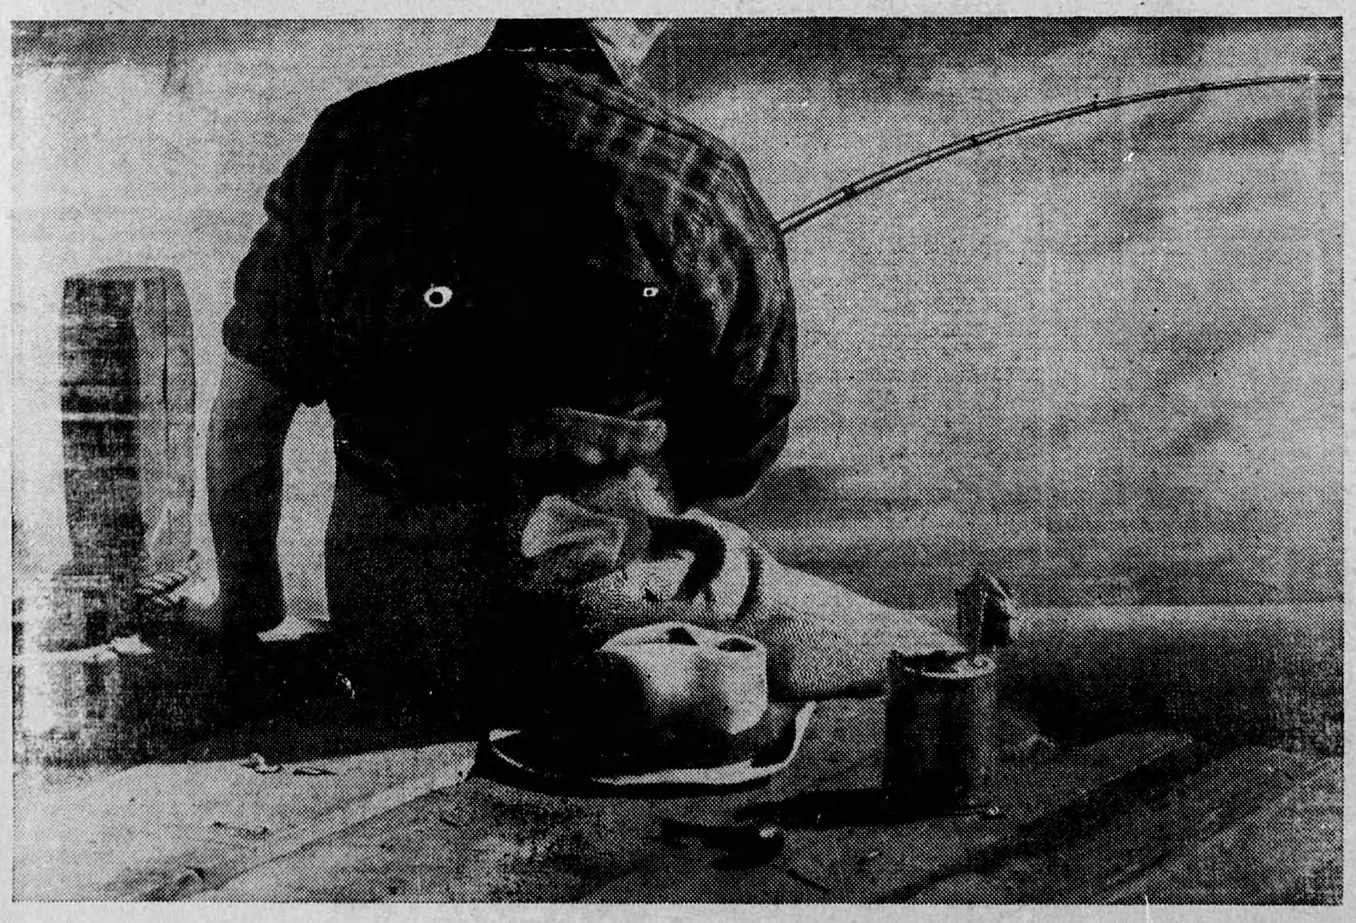
THE CANADIAN WAY OF LIFE . . .



A Chance to Go Fishin' . . . !

YES, and the *right* to go fishin'... the *right* to enjoy the simple, pleasant things of life! Picnics by the river—week-end trips in the old family jalopy—these are some of the things that your boy is fighting for today! And he won't be able to enjoy those things, unless we at home fight *for him* against inflation—unless we make sure when he gets back his dollar will be worth a dollar.

To protect his dollar, we must realize NOW the dangers of careless, unnecessary buying! We must buy *only* what we need—*never* buy two where one will do! We must not evade rationing or price control, or deal with black markets. If we break the rules, our country—the country he's fighting for—will start on that spiral of prices known as inflation!

Remember! Every time ONE of us breaks ONE of these rules, we're lowering the value of our soldier's dollar. We're helping to shoot prices sky-high . . . and sky-high prices *mean* inflation. The value of every dollar in Canada goes down, and when the men overseas come back their dollar might buy only a quarter's worth of goods!

We *can* prevent inflation! We *can* give our fighting man his "right to go fishin'", if we make sure his dollar will be worth a dollar, when he comes home. We can't give back to him his lost years, or his lost youth. But if we keep up the fight against inflation, he can look forward to pleasant, satisfying living — the Canadian way of life!

Make this Pledge Today!

I pledge myself to do my part in fighting inflation:

By observing rationing and avoiding black markets in any shape or form.

By respecting price controls and other anti-inflation measures, and refraining from careless and unnecessary buying. I will not buy two where one will do, nor will I buy a "new" where an "old" will do.

By buying Victory Bonds and War Savings Stamps, supporting taxation, and abiding by all such measures which will lower the cost of living and help keep prices at a normal level.
