Last night I held a lovely hand
A hand so soft and neat,
I thought my heart would burst with joy,
So wildly did it beat.
No other hand unto my heart
Could greater solace bring
Than the dear hand I held last night—
Four aces and a king.

Passenger—"You'll bring me back safe, won't you?"
Pilot—"I've never left anyone up there yet."

Clerk—"Here's a pretty card with a lovely sentiment: 'To the only girl I ever loved.'
Sailor—"That's fine. Give me a dozen."

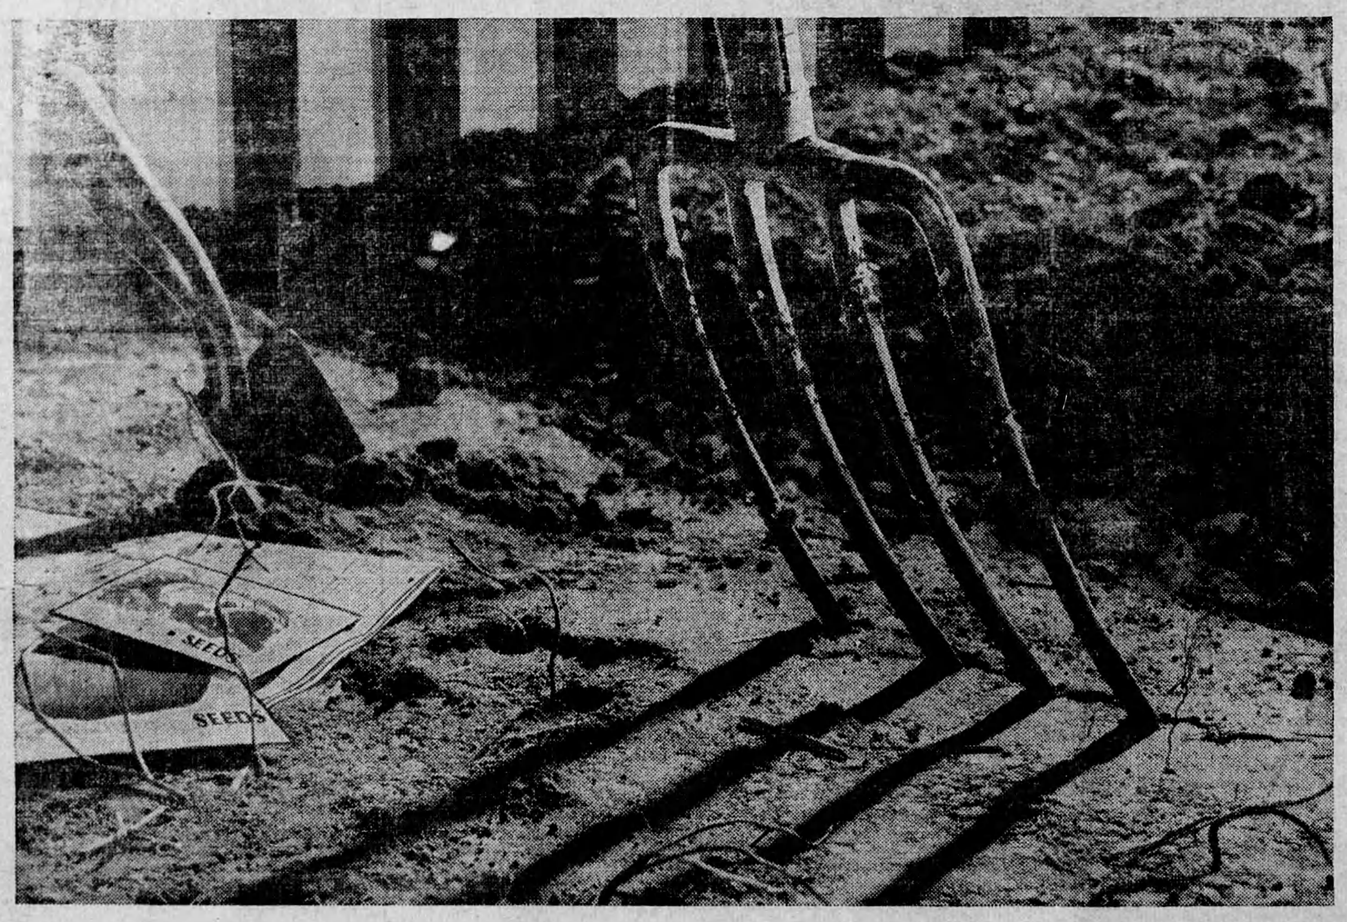
"I had to change my seat several times at the movies."
"Gracious, did a man get fresh?"
"Well, finally."

Shift Operator—"The job is easy if you use common sense."
Mechanic—"Common sense is a rare gift of God. I have only a technical education."

Any movement which sets out to build a neighborly world must start out with neighborliness in its own ranks.

Coed—"I'd like to see the captain of this ship."
Sailor—"He's forward, miss."
Coed—"That's all right. This is a pleasure trip."

THE CANADIAN WAY OF LIFE...



Down to Earth...

GARDENING for the fun of it—week-end trips in the old family jalopy—lazy days fishing by the river—these things still stand for a pleasant way of life—a way of life our men overseas are fighting for today! They won't be able to come back to these simple things, unless we get "down to earth" in our thinking, and make sure when they do come back, their dollar will be worth a dollar!

To protect that dollar, we must realize *now*, the dangers of careless, unnecessary buying! We must buy *only* what we need—never buy *two* where *one* will do! We must not evade rationing or price control, or deal in black markets. *If we break these rules*, our country—the country our soldiers are fighting for—will start on that spiral of prices known as inflation.

And inflation affects everyone... wage-earner, pensioner, small-business owner, *returned soldier!* That's why it's important to take a stand against it *now*. If inflation starts in this country, this is what will happen. Prices will rise. Wages will try to follow along—and will never quite catch up! Soon your dollar—your soldier's dollar—may buy only 25% of the things it used to! That is what has happened in many of the countries of the world today, and that is why normal living for *anyone* is impossible in those countries!

So let's make sure our soldier's dollar, when he gets back, will be worth a full dollar. We cannot give back to him his lost years or lost youth. But if we keep up the fight against inflation, the man who is overseas can look forward to pleasant, satisfying living... to the Canadian way of life!

Make this Pledge Today!

I pledge myself to do my part in fighting inflation:

By observing rationing and avoiding black markets in any shape or form.

By respecting price controls and other anti-inflation measures, and refraining from careless and unnecessary buying. I will not buy two where one will do, nor will I buy a "new" where an "old" will do.

By buying Victory Bonds and War Savings Stamps, supporting taxation, and abiding by all such measures which will lower the cost of living and help keep prices at a normal level.
