After consulting with the Secretary of Special Objects, it is expected the money will be used to support a cot in the Chentu hospital, China, with the privilege of naming it. So a liberal contribution is asked for. "Inasmuch as ye did it unto the least of these ye have done it unto me."

Mr. Edward VanDusen, who has for many years been a member of the Chicago police force, now superannuated, arrived here Friday last and will remain with his mother until next spring. Mr. VanDusen says he only wants to get away where it is quiet and from the debauchery and crime of the Windy City. He says lots of whiskey is sold in that "bone dry" city at 75c an ounce and the moneyed people are going absolutely crazy over pleasure. Road houses flourish and crime is on the increase.

Mr. James Turner, South Line, handed in the champion sweet clover "tree" on Monday. We call it a tree advisedly, because it measured nine feet nine inches from tip to root and 2½ feet more of root. If this is not a tree, what is? We do not envy Mr. Turner his labor of clearing the forest on his ten acre field, but we trust he will get it properly done and make a lot of money out of his venture.

Child Strangled

A little son of James Breadner, eleven months old, of the 11th line, Euphrasia, met its death in a most peculiar and heartrending manner on July 30th. The parents had gone out for a few minutes, leaving the infant on the bed. It is supposed that it worked its way to the foot of the bed where it slipped through between the iron frame, where its head was caught, with the feet not touching the floor. When the parents came in it was hanging by the head but life was not extinct. The babe was extricated and a doctor sent for, but it died of convulsions shortly afterward, blood vessels in the neck having been ruptured in the struggle.

Fox Raids Wholesale

James Thompson, who moved last winter from Carrick to a farm on the 9th con. of Brant, had a fine flock of 24 ducks which wandered off to a nearby pond at an early hour one morning and on their failure to return at the usual time a search was made for them, with the result that a fox was discovered to have raided the flock and to have killed no less than 22 of the birds. Twelve carcasses were lying near the scene of slaughter, while 10 of the ducks had been carried off or devoured by reynard. The remaining two were located in a badly disabled state. As the ducks were full grown and about ready for the larder, their wholesale destruction represents quite a loss to the farmer, who little recked that he was raising them to fatten a common red haired four footed mongrel thief—Bruce Herald and Times.
