FARMERS NEED "GOOD" TIRES

As a farmer, you need tires with wide, deep treads that bite into the road—forward and backward. Tires that can pull you out of tough spots and keep you going. Everything you would expect in a tire, you get in Dominion Royal. We'll be glad to help you get your tire permit.

ELECTRICAL WORK

I have completed a practical Electrician's course and have been granted a permit by the Wartime Prices and Trade Board to do electrical wiring and make repairs to all types of electrical equipment, including motors.

Due to conditions brought on by the war, materials are in short supply and in great demand. Under these circumstances I will try and serve you to the best of my ability.

Hoping to have your patronage in the near future.

CREAM

In view of present circumstances in respect to the continued shortage of gasoline and truck equipment, our trucks are again collecting cream this year — three time in two weeks.

THE EFFECT OF THE ABOVE PICK-UP SCHEDULE ON CREAM QUALITY . . .

We are glad to say that due to the extra care given cream by the producer, the quality of our products last year did not suffer at all. We hope that we will have the same splendid co-operation again this year and thereby help to maintain the high standard of butter, at the same time save gasoline and equipment until the conclusion of the war.

For your convenience the Creamery will be open Wednesday and Saturday Nights.

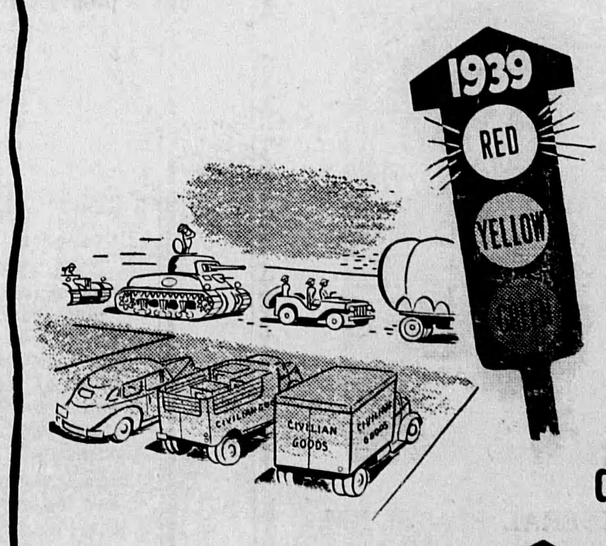
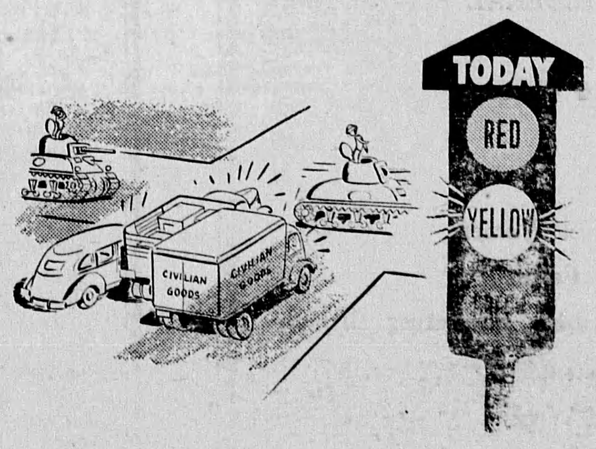
BE PATIENT!
SOME GOODS ARE STILL SCARCE . . .

DON'T CONFUSE THE SIGNALS



War came. Most civilian goods had to be diverted to war needs. That caused shortages of civilian goods—*that was the RED LIGHT*

don't jump the YELLOW light

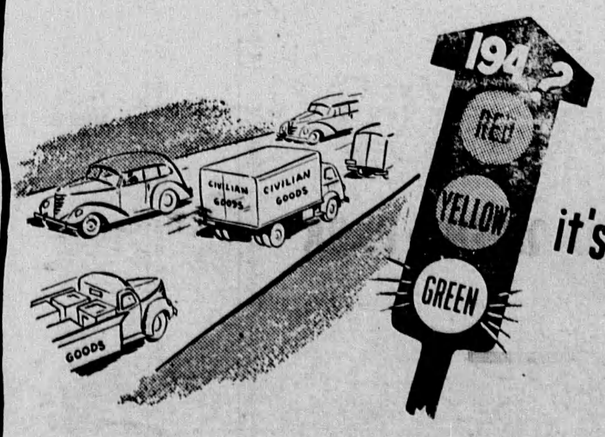


Some restrictions have been lifted, but war demands are still great. We must help our Allies and the liberated countries. We can't neglect them.

(*This is the YELLOW LIGHT ONLY*).

It does not mean the end of shortages. Getting back to peacetime production will be piecemeal and gradual.

Goodwill, patience and energy now will assure a prosperous Canada tomorrow.



it's NOT the green light yet

Only after Victory over Japan can the Green Light be switched on, and the road cleared for enough production to meet all our civilian needs.
