At the Division Court at Orillia an interesting point of law was involved. The action was to recover $199 on a promissory note. The agents for the defendants set up a defence that the suit was entered permaturely as the note in question was not due until midnight on the day it was sued. The plaintiff contended that as the note was payable at a Bank, same became due at the close of banking hours and cited a decision in support of his claim. In this he was upheld by the Court, who gave judgment for the plaintiff for amount claimed and costs

A car and a cow contesting the roadway one day last summer provided material for a five hour session of division court here on Wednesday last, when G. Hamel of Hanover, brought suit against John Scanlon of Brant township for damage to his car. The cow, alleged to have been Scanlon's, was in collision with Mr. Hamel's car on the road during the summer, and as the bylaws of Brant prohibit cattle running at large the legal action was brought. Mr. Scanlon won the cass at its first hearing, but appeal was taken and this was heard Wednesday by Judge Greig. Evidence was not conclusive as to the ownership of the offending cow and his honor reserved decision until Monday when he gave judgment in favor of Hamel for the full amount of his claim of $45, together with the costs of both trials, which will probably mean a total levy of nearly $100 against Mr. Scanlon.—Bruce Herald & Times.
