**Flesherton, Ontario**

Late to bed,
Early to rise,
Makes a man saggy, draggy, and baggy,
Under the eyes.

A few days later losing his wallet, a lumberman received this letter: "Sir, I found yor muny, remorz is nawing me, so ahm sending sum of it bak. When it naws me agin, I will sen sum more."

A dapper little man applied for a separation order to be made out against his wife on the ground of cruelty.

When asked by the magistrate if he could prove his case, he replied meekly: "One night I dreamed I won $100,000, and the following morning my wife nearly killed me for not putting it in the bank before I woke up."

# " . . . There She Goes!"

YES, there goes the whistle that means jobs! But remember! Factory whistles will keep blowing . . . smoke will keep pouring from factory chimneys, only if *you* and all of us do our part to keep Canada's dollar sound. And unless we keep the Canadian dollar worth a dollar, we're headed for inflation, and its inevitable result—depression!

Canada's *active* fight against inflation is a vital part of all our post-war planning. We Canadians must *now*—more than ever *now*—*fight* to keep Canada's dollar worth a full dollar!

Why *now* especially? Because *now* civilian goods are scarce, and yet money is plentiful. This is a dangerous condition.

It means we *must* maintain controls and price ceilings; support rationing and urge the support of rationing. We *must* buy wisely and with the greatest care: be on guard at all times, checking, working, fighting to keep Canada's dollar sound. If we *do* this, we can keep prices from rising. If we *don't*, some day we'll be paying a dollar for 30c worth of goods, which means our dollar is only *worth* 30c.

We know what happened after the last war! We must fight against it happening again. For our own sakes —for the sake of the men who fought overseas and to whom we owe a future with a job, we *must* keep Canada's dollar worth a full dollar. We must keep up an active *fight* against inflation!

**Make this Pledge Today!**

**I pledge myself to do my part in fighting inflation:**

By **observing rationing** and avoiding black markets in any shape or form.

By **respecting price controls** and other anti-inflation measures, and refraining from careless and unnecessary buying. I will not buy two where one will do, nor will I buy a "new" where an "old" will do.

By **buying Victory Bonds**, supporting taxation and abiding by all such measures which will lower the cost of living and help keep prices at a normal level.
