"Every regular employee returning from war service will be placed in a position at least equal to that which he occupied when he left the company. Every effort is being made to decide upon a specific assignment for each employee prior to his return."

...from Address of President F. Johnson, at 1945 Annual Meeting.

"It's good to be BACK IN HARNESS!"

And it's good to have you back, Harry. We've both got a big job ahead of us, catching up with all the things we've been unable to do since you went away.

Did you know, for instance, that there are now over 70,000 applicants for telephone service on our waiting list? No need to tell *you* what that means in new equipment — not just instruments, but cables, switchboards and all the other things that go into a telephone system. No need to tell you, either, that all of us are looking forward to the day when the whole Bell family will be together again, working away at our job of *catching up* and *keeping up* with our customers' expanding telephone needs.

It all means PEOPLE AT WORK
In the years ahead Canada's expanding economy will call for great extension and improvement of telephone plant.
