It takes more than bricks!

SOMEDAY THAT DREAM home will be yours—*if* you are willing to fight for it today! Bricks may build a house, but to build a *home* you need more than bricks! You need security—a job—a future! And these depend on a Canadian dollar that will always buy a full dollar's worth of goods—a steady, sound dollar that's not pulled down to half its value by inflation! That's why it's necessary NOW—more than ever now—for all of us to fight and work to keep that dollar worth a dollar!

Why is it so important NOW? Because *now* is the time civilian goods are scarce, and money is plentiful. NOW is the time we must guard against paying MORE than things are worth . . . or buying things we don't really need. We must support rationing, observe price ceilings, and avoid black markets. If we *do* this, we can keep prices from shooting sky high. If we *don't*, some day we'll be paying a dollar for fifty cents' worth of goods. This means your dollars—those dollars you've saved to buy your home—will only be worth fifty cents! *This is* inflation!

And after inflation comes depression! We know what happened after the last war! It mustn't be allowed to happen again. That's why, for our own sakes, and for the sake of the returned men to whom we owe a job, a future, a home of their own—we must make sure Canada's dollar remains steady. We *must* keep up a constant fight against our country's enemy—inflation!

Make this Pledge Today!

I pledge myself to do my part in fighting inflation:

By observing rationing and avoiding black markets in any shape or form.

By respecting price controls and other anti-inflation measures, and refraining from careless and unnecessary buying. I will not buy two where one will do, nor will I buy a "new" where an "old" will do.

By buying Victory Bonds, supporting taxation and abiding by all such measures which will lower the cost of living and help keep prices at a normal level.
