BACKACHE
The Plague of Outdoor Men

The outdoor man, whether he be farmer, truck driver, or railway operator, is often subject to backache. This may be the result of exposure to cold and dampness or the result of strain from the jolting and bumping of the vehicle he rides.

To many people, women as well as men, it would be great to be free of backache—one of the most common and annoying of ailments. And here is how you may be relieved of backache and other symptoms of poisons in the blood.

The treatment suggested is Dr. Chase's Kidney Liver Pills. By reason of their stimulating action on both the liver and kidneys, you have two chances to one of getting relief from your backache by using Dr. Chase's Pills. The torpid liver is aroused to action, the kidneys are stimulated and consequently these organs help to purify the blood of the poisonous impurities which bring pains and aches and tired feelings.

Keep regular and keep well by using Dr. Chase's Kidney Liver Pills. 35cts. a box.

Dr. Chase's Kidney-Liver Pills

NABBED AT LAST

One of the last of Hitler's henchmen to be taken by the Allies is Martin Bormann, above, chief deputy of the Nazi Party, listed as one of the most-wanted major war criminals. Bormann rose to power as Hitler's right-hand man after the disappearance of Rudolph Hess in 1941. He'll be an early defendant at the Nuernberg trials.

Britain's Clothing Ration Shrinks

Sir Stafford Cripps, president of the Board of Trade, announced a cut in Britain's already skimpy clothes ration.

For the eight-months period from Sept. 1 to April 30, 1946 the allowance will be 24 coupons, he said.

From Aug. 1, 1944 until the end of this month, a period of 13 months, Britons were allowed 48 coupons.

Sir Stafford said, however "this should be the last period of acute privation". He explained the drastic rationing at necessitated by a manpower shortage in the cotton industry.

On the 24-point ration, a woman can buy one pair of shoes (7 points), one wool dress (11 points) and two pairs of hose (3 points a pair) in eight months. To get a new suit (26 points) a man must have saved two coupons from the last ration period, and must forego any other new clothing.

Rattlesnakes add from two to three "rattles" annually, and sometimes as many as four.

OTTAWA REPORTS

That Coarse Grains Carry-Over In Canada This Year Is Smallest Since 1940

This year, when the world food situation is in a critical condition, the crop prospects for coarse grains in Canada are decidedly poorer than they were a year ago; and coupled with lower production is the smallest backlog of grain carry-over since 1940. The situation is outlined in a report issued by the Dominion Bureau of Statistics. In eastern Canada the carry-over is insignificant, and in the western provinces it is 30% smaller than a year ago.

To alleviate the western shortage, shipments of coarse grains to the east have been suspended until after mid-September. The great drop in prairie production—amounting to 100,000,000 bushels of oats and 30,000,000 bushels of barley—has been caused by drought and cool weather.

In Manitoba and eastern Saskatchewan crop prospects have been favorable, and in Ontario and Quebec barley promises to yield well, with average prospects for oats. The yield of oats and wheat in British Columbia is expected to be good.

During 1944-45, exports, mainly to the United States, have exceeded those of a year ago. The Feeds Administration has now placed rigid restrictions on the export of barley and oats from Canada for the present.

* * *

This time war memorials are going to serve useful and valuable functions. The civic consciousness developed by Canadians through their war tfforts will be turned to building practical community projects such as recreational and cultural centres dedicated to those who gave their lives in this war.

Substantial federal help in both planning and financing is promised. Actually it is all part of the plan for reconstruction and full employment, and in order that these plans can be made efficient, the government lays down one condition—construction must be undertaken only when the federal government gives the go-ahead signal; otherwise a big project might be commenced when the labor situation is tight. If, however, communities wait until the employment graph begins to drop, the work offered by the projects will fill a vital need.

DEVASTATION UNLIMITED

Conscription Remains In Force In Great Britain

Prime Minister Says Germany Defeated But Unrepentant

In a straightforward statement to the British people Prime Minister Atlee has explained why conscription must remain in force in England ..to meet the continuing needs of the services and in particular to release those who have been serving in the war." Germany is defeated but unrepentant: "We must continue to find large forces for the occupation of the British zone." A hard and dangerous winter lies ahead on the whole Continent: " We must take our share in establishing conditions which will allow of reconstruction without violence."

* * *

Then there are Britain's obligations in the East: "The occupation of Japan and the restoration of the territories of ourselves and our allies will need substantial forces for some time to come:" Veterans who have done the actual fighting overseas, and who now want badly to come home, can be released from the performance of these new duties only to the extent that new men are provided in the necessary numbers: "The maintenance of adequate forces by sea. in the air and on the ground is vitally necessary if we are to fulfill our obligations to our allies and if we are to see that what has been won in the war is not lost in the immediate post-war period."

* * *

As Mr. Attlee reminds both his people and our own, "those who remember the disturbed period at the end of the last war will remember that one of the prime difficulties of the situation was the inability of the Powers which had won the war to provide the necessary forces for the prevention of violent action by sectional interests pending the completion of negotiations for world peace." This time, "We must not fail the world. We have fought for democracy. We must insure that the conditions for its exercise exist. All this reacts on our situation here today."

Popular Popcorn

Americans must like popcorn, because nearly 300,000 acres of it have been planted this year; the liking is growing because this is an increase of 68 per cent over last year's acreage.

GOVERNOR-GENERAL'S FAMILY

Canada's newly appointed Governor General, Field Marshal Sir Harold Alexander, is well-known to many Canadian soldiers who served under his general command during the campaigns which conquered Sicily and Italy. His wife, Lady Margaret Alexander, is pictured here with her three children at the family home, "The Vale", in Windsor Forst, Berkshire, England. Left to right: Shane William Desmond, 9; Lady Alexander; Rose Marie, 12; and Brian James, 6.

Paper Salvage Still Necessary

Paper salvage will continue during the post-war years, states the Chatham News. In fact, it may become a permanent institution. Canada's wood pulp resources, from which paper is made, are fast being depleted, and until the government undertakes a comprehensive plan of reforestation to supply future needs, the shortage is apt to become even more acute

Paper is needed for many purposes in peace as well as in war. Salvage collectors are able to make a nice profit from the sale of waste paper, to assist in public and patriotic enterprises which will always be necessary, and the paper thus contributed is welcomed at the mills where it is reprocessed with successful results.

Britain Not Giving Away Hong Kong

It is apparent the Attlee Government in Great Britain has no intention of liquidating the British Empire, comments the Windsor Star. Pronouncements of Prime Minister Attlee and Foreign Secretary Bevin intimate that Britain is going right ahead in assuming a leading role in world affairs.

Some people thought the first thing a Labor Government in Britain would do would be to toss the British Empire to the winds.

Even with India, Mr. Attlee has been careful to explain that freedom will be granted India, as soon as the people of India are fit to govern themselves. That policy is along the lines of former Governments in India.
