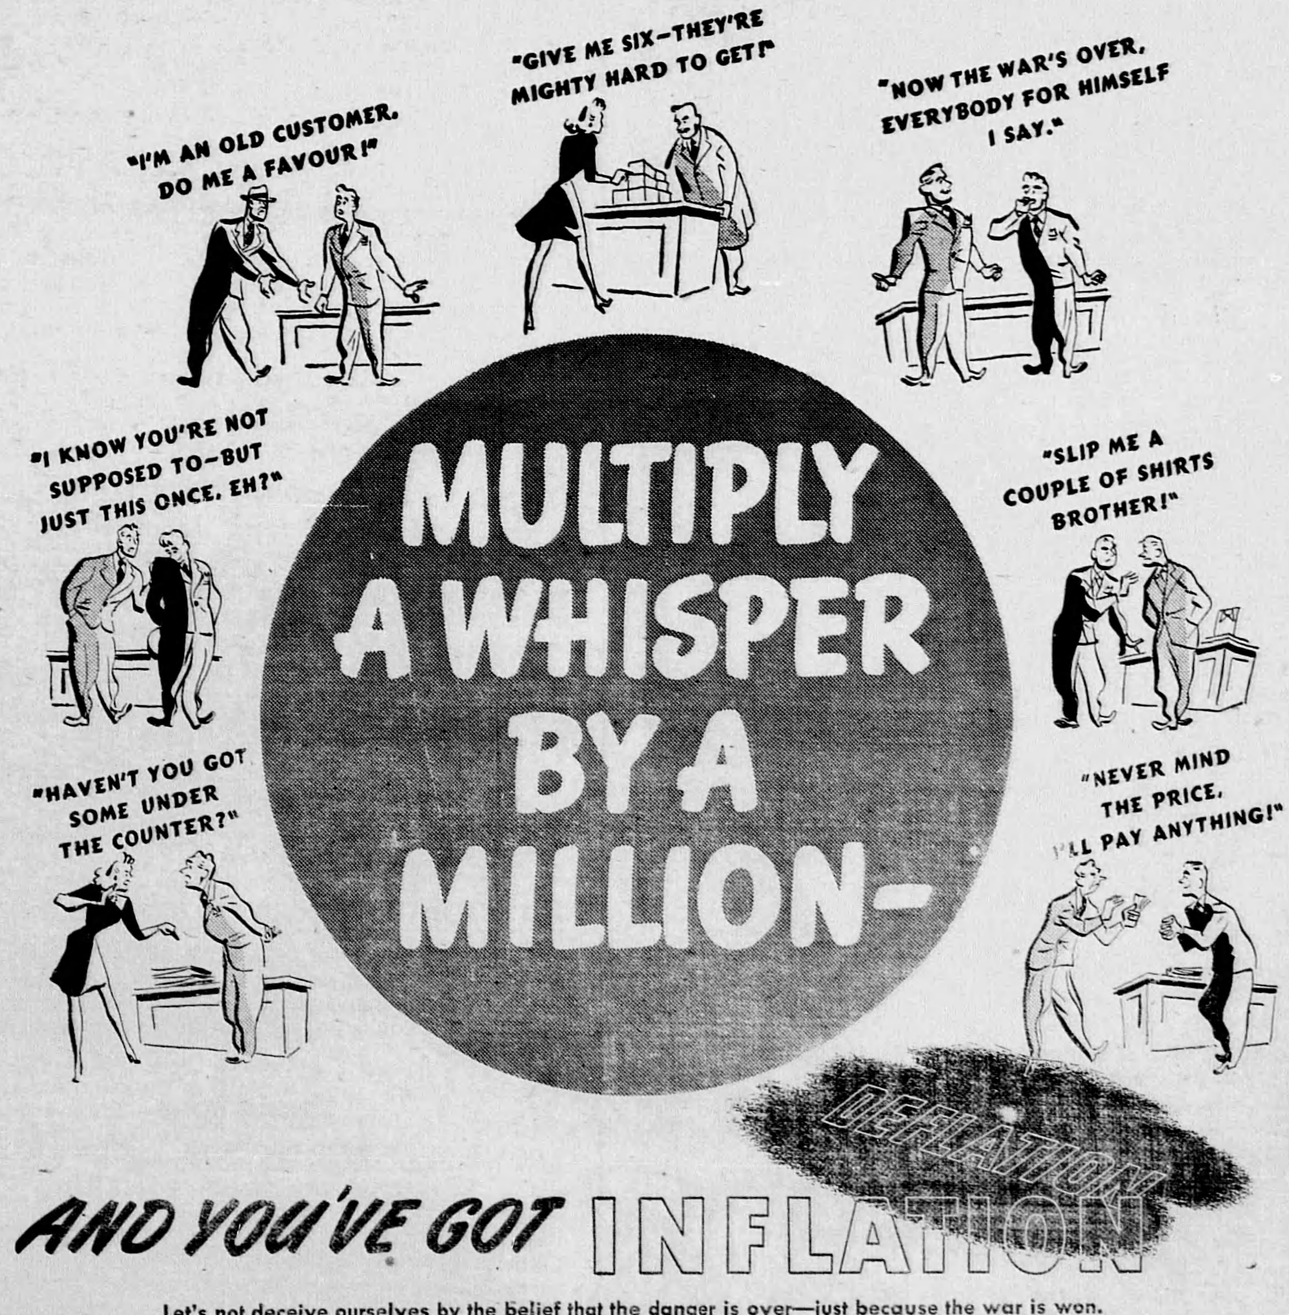
POULTRY MARKETING

WE URGE YOU TO FATTEN AND MARKET ALL POULTRY AS EARLY AS POSSIBLE

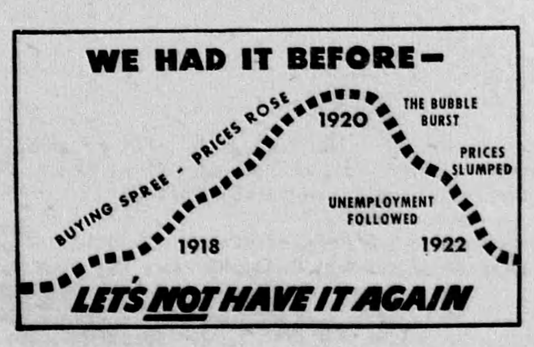
By selling now you are saving weeks of feeding and labour, receiving good market prices and helping us to handle the great volume of poultry orderly.

If you find it inconvenient to dress your poultry, let us dress it for you. You will benefit by it.

Flesherton Creamery & Produce
Phone 86 Angus Avis, Manager



Let's not deceive ourselves by the belief that the danger is over—just because the war is won. And let's remember that inflation is always followed by deflation with its misery of bankrupt businesses, mortgage foreclosures and unemployment.



It's your job and your savings that are at stake.

The danger of inflation, with its black shadow—deflation,—will remain as long as goods are scarce and insufficient to meet demands. That may be 6 months, 12 months, 18 months. Only time will tell. As quickly as controls are unnecessary, they are dropped.

After nearly 6 years of war, industry cannot switch over to normal production of civilian goods by a snap of the fingers. Reconversion takes time. The whole system of raw materials, labor and production has to be re-geared.

★ ★ ★

In the meantime, price ceilings, rationing and other controls are the safeguard for every one of us. It's everybody's responsibility to help make them work.

SO—Keep on watching your buying. Don't rush to buy scarce goods. Keep on saving your money. Put it into Victory bonds and War Savings certificates.

Keep on supporting wage and price controls, and rationing.

Keep on fighting inflation and its black shadow . . . deflation.

This advertisement is issued by the Government of Canada to emphasize the importance of preventing a further increase in the cost of living now and deflation and unemployment later.
