Don't Do It

Don't start the spring house cleaning and washing without THE RED STAR WASHER. A substantial built machine made of Cypress, (the wood everlasting), all metal parts galvanized to prevent rust, runs easily as the mechanism runs on bicycle ball bearing a slight pressure will send the fly wheel spinning, runs quietly as the gears are spiral shaped machine cut. The lid fits tight and keeps in the steam so that the water remains hot during the entire washing. Come in and let us show you.

Also Paints and Varnishes, etc, for house cleaning.

Diamond Wedding

Quite a number from here attended the diamond wedding of Mr and Mrs Samuel Walker of Euphrasia on Monday evening, April 11th. Mr and Mrs Walker were married at Vandeleur on April 11, 1861, by Rev. Mr. Campbell.

Mr. Walker was born in Belfast, Ireland, and came to this country with his parents. He spent most of his life in Euphrasia township and has been an invalid for a number of years.

Mrs. Walker was formerly Miss Mary Graham, daughter of the late Mr. and Mrs. Andrew Graham of that place, and was born in Scotland eighty years ago, and came to this country at the age of thirteen years. She is the oldest of a family of six, all of whom are still living. She still has in her possession a fancy shell which she brought with her from her Ain Countrie. Mrs. Walker is still in possession of all her faculties and enjoys remarkable health. She can read without glasses and has recently completed a piece of crochet work which would be a credit to any young woman. It is about ten inches square with a fleurs de lis and cross in the centre and in the border are the words:

Life is mostly froth and bubble
Two things stand like stone,
Kindness in another's trouble,
Courage in our own.

She has been today (April 18th) out to poll her vote for total prohibition.

To Mr. and Mrs. Walker seven children were born—five girls and two boys, four of whom survive. The youngest son, Bruce, who went overseas with the 147th Battalion, died in Egypt in 1918. During the evening, which was pleasantly spent in music and song, Mr. and Mrs Walker were presented with an address and many tokens of appreciation and esteem.

We had nice sleighing on Sunday, but it is warming up again. This storm may clear up the weather. When the warm weather comes again we may be like the fellow who said about the last warm spell when he wondered if the gulf stream had changed its course again and was coming down the Beaver river.

PRICEVILLE

Several farmers have sown a field or two of grain but the rain last week gave seeding operations a set back.

The snow and sleet that fell on Saturday of last week formed a hard crust on roads and fields and we noticed some persons using a cutter in driving to church on Sunday morning last.

A bad mud hole is formed about half way up the hill East of the village and several cars and trucks are held up daily for more or less time. We hope that whoever has charge of this portion of county road will get busy with least delay possible.

Dan McInnes of town and young Dunbar of Glenelg will handle L Frook's teams and machinery this week in seeding operations.

We understand that A B McDonald, East of town, has entered into partnership with D G McLean in the general store here. A B will likely operate the farm also for this season at least.

Ray McLean, who spent the winter with the hydro survey staff, has returned to the garage here and is busy attending to the wants of car owners.
