WHEN THE BOYS COME BACK TO THE FARMS

They'll probably want telephone service, if they didn't have it before. War has taught a lot of those in uniform — and their parents, too — to rely on telephones more than ever.

Our plans are ready to make rural telephone service in Ontario and Quebec available to a greater number of users in the post-war period.

Much of the preliminary work already had been done when war interrupted the program extending rural telephone service. We intend to resume it as soon as the necessary materials and manpower are available.
