A definite "yes" is Firestone's answer to the second question. Wilbur Shaw, the famous race driver, proved it when he drove Firestone tires 500 miles at an average speed of 100.34 miles per hour over the Indianapolis Speedway—equal to 50,000 miles of ordinary driving.

WHEN you can buy new tires depends largely on UNNRA demands and rationing authorities. But you can be sure that once Firestone is given the go-ahead signal our full production will be devoted to your needs. In the meantime, your nearby Firestone Dealer will gladly do everything he can to help make your tires last. See him today.
