The Farmer's Partner

A Bank, like an individual, is known by the company it keeps—in other words, every bank has a distinct character.

This Bank has been so closely associated with rural development in the past half century that it is now characterized as the Farmer's Partner

If you are looking for practical banking co-operation, let our local Manager demonstrate "Standard" service. 356

Big hauls of suckers have been made at the Beaver river. Car loads have gone out and brought back bags full of the scaly denizens of the deep. Pickled sucker will likely be in vogue for months to come. We are waiting for the trout season.

A start on the county roads was made here on Tuesday of this week, when a gang of men was put on at Beecroft's hill 2½ miles east of Flesherton, to complete the gap left there last fall. A. McLean of Priceville is running the grader and Maurice Wright of Flesherton the big tractor.

"Well No 1" of the Canadian Oil fields, Limited, was "shot" with nitro glycerine on Friday evening last without definite results other than filling the hole with debris, which is now being removed with the drill. The result of the blast will not be known until the hole is cleaned out. A number from a distance were on hand to take a swim in the lake of oil when it was tapped, but returned home, having decided to postpone the dip.

Many of our exchanges, including the Toronto Star, have been blowing about big hen eggs in their constituencies, but Flesherton can do them all up. Mark Wilson has a hen which laid four eggs in the past five days, all of which measured from 7x8 to 7⅛x8⅛ inches, the last one being the larger, showing the hen is improving with practice. These four eggs weighed 21 ounces. Now come on you big egg fiends, and if you can equal this the Flesherton bird is prepared to do even better.

Come to the box social Monday night.

Monday was not a "wet" day.

The "Beautiful Spring" got a bad knock in the eye on Saturday last when two inches of fine snow fell and the mercury went down to a February standard. Of course everybody expected something of the kind but it was none the less unwelcome on that account.

Come to visit Japan and China and attend the Birthday Party and Conundrum Social which will be held at Inistioge church on Friday, April 29th. Tea served by Japanese and Chinese waiters from 7 to 9. Program consisting of recitations and vocal and violin music. All for 25c.

A very interesting concert was given in the high school on Friday evening last by the Literary Society of the high school, when a splendid program of songs, musical selections and recitations was enjoyed by the audience present. One of the most interesting events was the reading of the school paper, "The Astonisher," which created much amusement.

The baseball club have been fixing up the playing field at the agricultural park and expect to have a good smooth diamond. The boys are working hard for a league for this district and some good games are in view. As far as is known the league will comprise Eugenia, Ceylon, Flesherton, Markdale, Rocklyn Dundalk and Glenelg Centre.

The Easter thankoffering of the Women's Missionary Society was held in the Methodist church on Thursday of last week. Greetings were brought from the Baptist Circle by Miss Roy, and from the Presbyterian Auxiliary by Mrs. Rev. Fowler. A good program of music and readings was given and a thankoffering of $65 was received. At the tea hour Miss Myrtle Hacking sang "Just for Today" very sweetly. About fifty were in attendance.

Treat Grain For Smut

Disease causes a yearly financial loss to Ontario farmers due to smuts at least $2,720,000. It is claimed that at least $1,800,000, is the loss in oats alone. Yet it is known by careful management that at least 75% of that loss could be eliminated by treating the seed grain with Formalin. Loose Smut of oats, Stinking Smut of wheat and Covered Smut of barley, can be prevented. Why won't more farmers use the treatment? It pays every year. The cost is practically nothing yet the benefits derived are worth while. Take one pint of Formalin, put it into 40 gallons of water. Thoroughly mix the solution. Heap the grain on an old oil cloth or canvas on the floor. Sprinkle the Formalin solution over the grain by means of a watering can and turn the heap over with a shovel. Turn the seed over till every grain is dampened. Cover the pile with a canvas or sacking and leave for three or four hours. At the end of that time spread out thinly to dry If the grain is shovelled over two or three times it will dry quicker. Forty gallons is enough to treat 30 to 40 bushels of seed If less than that amount is required for seed use less Formalin and water, but be sure that the proportion is the same.
