ERYSIPELAS.—Jss. Buck of the Minden hotel has had a very serious attack of erysipelas, but he is happily so far recovered as to be out of dauger. There is a great deal of illness in the neighborhood, and the doctors are kept busy. It is an ill wind

that blows nobody good.

ing much longer than usual.

ALIVE AND KICKING.-I suppose you thought your Piuedale correspondent was dead, but he is yet alive. On reading your local correspondet I am coninvinced more than ever of the difficulties of the position of an editor. Notwithstanding the repeated requests of the editor of THE Post to orrespondents to avoid insulting person allties your correspondents at Wick and Layton seem to be incapable of anything Layton seem to be incapable of anything else. I thought that after the ut er failure of his personal attempt at wit at the expense of most of the respectable inhabitants of Wick and Layton he had got ashamed of himself and ceased to give vent to any more of his soft babblings (which by the way are as soft as his staple food) but I fear I gave him credit for possessing more reason than he was possessed of as I more reason than he was possessed of, as I now believe he is one of those privileged persons that are occasionally met with who are exempt from punishment both by divine and human law, as last week he has resumed the attack. This time his victims are a few young men of Pinedale. Not withstanding the fact that a slight dispute arose between them one evening on the way home from church, for which the would-be moralist from Wick terms them rowdies, I can assure the readers of THE Post that for morality or manners the oung men referred to are as far above the poor fellow at-Wick as the most pol

ished European in advance of a South Sea islander. BOECAYGEON. Onir.-George Oliver, reeve of Harvey. died suddenly of heart disease Saturday night. Mr. Oliver sat up on Saturday night reading his weekly papers, and went SEAGRATE.

She called and moved him, but to no purpose, for with a few faint flutters the spirit fled. For some years the family have been aware that the deceased gentleman was afflicted with heart disease, his medical adviser having warned hin that he might drop off at any moment. The deceased gentleman was buried in the Verulam cemetery on Tuesday and was laid to rest by a large concourse of friends. He first settled in Harvey some twenty years ago. After a short stay he went to the states, and then returned to his farm, having been off it now for the past sixteen vears. In that time, by steady industry, he had earned a comfortable homestead. He had cleared nearly the whole of his lo of 140 acres, and had it fully stocked with horses, cattle and sheep. In politics he took liberal views, but always sustained his opinions without making real enemies of his opponents. In religion he maintained a steadfast faith in the Presbyterian church, and was an exemplary member of that denomination. He leaves a wife and six children to mourn his loss.

DRUNKENNESS AND ROWDYISM.-There was more drunkenness and fighting in town on Thursday of last week than there has been seen in Orillia for a long time. SCOTT ACT.—There is considerable talk of attempting to pass the cott Sast in our county. The Dunkin act when in force was a complete failure, but the Scott act is siad to work well. She moved to Ocho we from Elint Michigan come two Oshawa from Flint, Michigan, some two years ago and started a fancy store, the goods for which she obtained with money borrowed from Mr. Hinkson, who knew her in Michigan. She claimed \$5,000 on the ground that she suffered in character and business relations by reports which Mackie and others circulated, reflecting upon her moral character; but the evidence did not prove it. No defence was offered; but as the plaintif was unable to prove special damages she was nonsuited, each paying their own costs. The case excited nuch interest Queen v. Jonathan Hopkins.-The defendant was arraigned on a charge of perjury in having wilfully and corruptly made an affidavit on which to procure a marriage license. The defende ant was married in 1873 to Miss Martha Strowbridge at Dunville. While his wife was living he married Miss Amarilla Cook in the township of Georgina in 1877. Repre sentations having been made to the attorney-general that there had been a miscarriage of justice he directed steps to be taken which resulted in the present charge against the defendant. The ministers who performed the ceremonies were called and proved the marriages, and the issuer of the marriage licenses proved the swearing to the affidavit, which among other things contained the usual clause that "there was no bar or legal impedi-ment to the marriage." Jack \$4,000 with which to buy sheep just before he fled the country. The money sued for in this action was given to defendant by Windley to pay a note in the Dominion bank Jack to pay a note in the Dominion bank at Lindsay, which the defendant had en-dorsed for him. The defendant at this time held a mortgage on some land to se cure him against the note, and Mr. Morgan claims that before taking up the note the defendant knew that the money was his and that he had no right to it. Glen, M.P., writes to the Oshawa Reformer: A few days since I saw two fat steers sold in flow at five cents per lb. live weight. They were three years old and weighed 1,100 lbs. each, and so netted their owners. \$110. Had they been well bred they should have weighed 1,400 lbs. each, and would have readily sold for 6½c. per lb., or \$182. The cost of labor and feed would have been no more in one case than the other, but the profit to the farmer on the well-bred animals would have been \$72 more than on the close he sold. This instance fairly the class he sold. This instance fairly illustrates the difference between the pro-

The Most Successful Remedy ever discovered as it is certain in its effects and does not blister. READ PROOF BELOW. Saved him 1,800 Dollars.

ADAMS, N. Y., Jan. 32, 1882.

Dr. B. J. KENDALL & Co., Gents:—Having used a good deal of your Kendall's Spavin Cure with great success I thought I would let you know what it has done for me. Two years ago I had as speedy a colt as was ever raised in Jefferson county. When I was breaking him, he kicked over the cross bar and got fast and tore one of his hind legs all to pieces. I employed the best farriers, but they all said he was spoiled. He had a very large thorough pin, and I used two bottles of Kendall's Spavin Cure, and it took the bunch entirely of, and he seld afterwards for \$1,800 (dollars). Shave used home spavins and wind galls, and it has always cured completely and left the leg smooth.

It is a splemdid medicine for rheumatism, have recommended it to a good many, and they all say it does the work. I was in Witherington & Kneeland's drug store, in Adams, the other day and saw a fine picture you sent them. I tried to buy it, but could not; they said if I would write to you that you would send me one. I wish you would, and I will do you all the good I can. Very respectfully.

Hutchison's Ranch, 12 miles north of Denver,

Colorado, March 16th, 1883.

Dr. B. J. Kendall & Co., Gents:—For the
past three years I have used Kendall's Spavin
Cure. In every case of spavin, of which I have
tweated five, it has killed them all, and entirely
removed three. Is case of splint I find it has no
equal, one case I had was of three years standing and the Spavin Cure has removed it entirely.
I had a cow get spavined and it entirely cured
her. One year ago a two hundred pound block
of ice fell out of a wagon striking my foot on
the instep and toes, it would be impossible
to mask a feet worse without breaking any
bones. I was taken home and carried into the
house. I do not think amputation of the leg
would cause any more pain. I went for Kendall's Spavin cure, it was all I used, and in six
days I could walk around. About three weeks
ago my team ran away and threw me out of
the wagon, the hind wheel strack my knee.
After applying several highly recommended
liniments without abtaining any retief, I went
for Kendall's Spavin Cure. My leg was drawn
up and my knee swolken badly. In three days I
was able to walk to the barn. I could go into
details more fully, and make this a very leng
letter but will not weary you. I am very respectfully yours, Oscar F. Hutchinson,

MESSRS, J. B. KENDALL & Co., Gents:—About eight months ago there was a valuable stallion brought to the stables of Farmers and Henry to be treated for a bone spavin, which was of one year's growth and of pronounced size, and having learned through outside sources that your liniment known as Kendall's Spavin Cure was very good. I commenced using it on the was very good. I commenced using it on the enlargement, and after six weeks using and having applied two bottles the horse was cured entirely, leaving the leg perfectly smooth.
