The well-known dry-goods firm of Melville & Thornbury have dissolved partnership. The business will still be carried on in the old stand, Doheny block, by Mr. A. H. Melville,

Mr. H. J. Keighley, who has been doing business in Lindsay during the past two years, has decided to withdraw, having been offered a lucrative opening in Toronto. Mr. Keighley has during his stay in Lindsay made many friends who will regret that he has decided to severe his connection with the town. As an active, pushing, business man, Mr. Keighley is well known, and, we trust, that in his new venture he will be very successful.

Dr. G. S. Ryerson of Toronto will be at the Benson house, Lindsay, on Saturday, May 3rd.

to the future metropolis of the Northwest,

We are pleased to notice in the Globe of Thursday last that Mr. John M. Gardiner, the student appointed to Kirkfield for the summer, stands at the head of the class lists at Knox college. Mr. Gardiner not only carries of the first prize in his year, but also stands highest in six out of the seven subjects upon which they are examined. This is a stand never before taken by any student in the history of the college, and our Presbyterian friends at Kirkfield are to be congratulated in their appointment for the summer months.

As usual the Lindsay butchers have made ample preparations for a fine display of easter

The ndvis, of the butchers will be found in another column, and below are some brief notes concerning the stock purchased for the occasion. Most of the animals were exhibited on the streets Monday and Tuesday mornings and were greatly admired.

Mr. John Jordan exhibited a number of weilfed cattle, one of which, a two-year old helfer. weighed 1,270 lbs. Another pair, fed by Mr. F. Jordan of Ops. weighed 2,400.

Mr. Peter Tully shows a fine pair of cattle purchased from Mr. R. Graham of Ops weighing 2,500 lbs., and also five head from Mr. Henry Mc Kay of Hogan's island, Ope. A pair of them turned the scales at 2,500 lbs.

It was stated in The Post of two weeks ago that the floor of the Daley house reading and bar-rooms was made of birch and elm. This was an error. It should have read "of birch and maple." garden," when a sweep has been made by the voracious and roving milch cow.

We direct attention to the salvt. of Fox & Curtin, who have purchased from Mr. John Brady's herd the fine Ayrshire buil "Sydenham Chief." It is claimed that the Ayrshire is the best breed for milking, and as cheese factories are becoming numerous it will be well for farmers to avail themselves of this opportunity to improve their stock. "Sydenham Chief" is from the celebrated Guy herd, Oshawa, and this alone is a guarantee that he is well bred.

—It is understood (and we hope and trust there is nothing libelious in repeating the statement) that a certain north ward councillor publicly declared that he would insist on the cow by law being kept as it was, and if any poor woman was put to hardship through want of pasturage for her cow he (the n. w. counciller) would pay \$5 in cash to provide such pasturage. —Mr. Henry McRay of Ope says stock-raising pays. During the last two years he has sold \$1.400 worth of horsen, cattle and sheep off one lundred acres of land and kept up his share of grain-releing. He has found it more profitable to raise stock and it pays to get the best. This is the experience and conclusion of many of our farmers, and this part of the country has made a marked advance in this respect within the last few years. It will soon rank among the best stock-raising sections in the province.

We regret to have to chronicle the death of one of our oldest and most estimable residents, the venerable mother of Mr. Jas. Connolly and the venerable mother of Mr. Jas. Connolly and of Mrs. Thos Connolly, wife of Coun. Connolly of this town. Although Mrs. Connolly had reached the advanced age of eighty-four years she was very active for her years and had good health up to a short time ago, when it became evident that she was approaching her end. The afflicted family in their bereavement will have the sympathy of a wide circle of friends.

The hearty sympathy of the whole commun ity is with Mr. M. Sanderson and Mrs. Sanderson and the members of the family at the recent terrible blow which fell unexpectedly last cent terrible blow which fell unexpectedly last week. On Saturday morning Emma, the second daughter, a bright and attractive young girl, and who was generally beloved and esteemed, was carried off by that terrible scourge diphtheria. Mrs. Sanderson was prostrated at the time with sickness and confined to her bed, and Mr. Sanderson first learned of his daughter's death on his return by the morning train from Peterboro, where he had gone, with other relations, to inter the body of his son Freddy. The circumstances of the double bereavement are particularly distressing. are particularly distressing.

We are glad to be able to announce that the firectors of the mechanics' institute intend to open the drawing classes on the 15th April. The directors felt that these classes were meeting a public want and at some sacrifice they maintained them for two years. They felt, however, that a claim for public assistance had arisen and a committee of the directors waited on the minister of education and laid the case before him. He commended the exertions of the directors and promised to give some help. This promise he has fulfilled and the directors have engaged the services of Mr. Reading, a graduate of the Ontario school of art. We hope that large classes will meet this gentleman and thus show the directors that their efforts are appreciated. Art schools are now established in Toronto, Ottawa, London and Lindsay. It speaks well for our town that we rank alongside those large cities in having this valuable adjunct to education. It is proposed to have classes specially for public school teachers. They will understand how this can be made advantageous to themselves, as the minister expressed to the Lindsay delegation his intention of making drawing a much more prominent feature in the course of the public schools. Pupils can register their names with the librarian, who can give full information. Everybody invited to be present when we will endeavour to show you the and Latest Novelties produced for feminine adornment.

A compact and truthful Story for buyers of Black Silks.

It is an absolute rule with all manufacturers of BLACK' SILKS who have acquired a reputation for reliable goods to stamp their own firm's name and the do mark on their best goods only, because they are made from pure stock and tested dyes, and on their second and third qualities made from impure stock and adulterated dyes, they stamp in large gilt letters some fancy name such as "Lyons Gros Grain", "French Gros Grain", "Italian Gros Grain", &c. The manufacturer thus condended responsibility of his seconds and thirds so stamped, which, it the maker's name was known, would completely kill his reputation.

When buying Black Silks ask your merchant to show you the make the stamped in gold or gilt letters. If he cannot do this and insists that his is the gend- II ine quality nevertheless because it is stamped in flaming gilt letters "Lyons was Grain" warranted pure, or some other fancy brand, ask him why the manufacturer does not acknowledge it as such by stamping his own firm's name and to be made thereon. Every sensible person knows that a good article enhances a manifestation. utation, and a manufacturer is proud to acknowledge such by endorsing it with his !! name and trade mark, but a poor article admitted as such by the emission of his :: name and trade mark, if traced home to him would ruin his business and reputation I as a manufacturer of Silks.—Thereby hangs a tale, which the sooner it is unicased by the public will the sooner and more effectually remove the very great complaints of the glossing and cutting of Black Silks.

Our Black Silks are guaranteed by the maker's name and trade in our prices for the acknowledged first quality are lower than any quotations we have yet seen for Seconds or Fancy Brands which are not guarant of by the endouse to tion of the manufacturer.—No Black Silk is pure without the manufacturer. Our stock is the largest and best assorted we have ever shown suitable to either Vision or Dresses, and we respectfully ask you to consider carefully the above with the and reason them out for yourself.
