"...SO NOW WE'LL HAVE A BANKER IN THE FAMILY!"

"Well, Bob has finally decided! When he's finished school he wants to go to work in a bank. And I'm glad—for a lot of reasons..."

He'll get a thorough training, and can even receive university instruction in banking and economics while he is working. Banking isn't learned in a day, but he'll get lots of help—and every opportunity to move up as he proves himself. The road to the top is wide open, and offers:

SECURITY AND PEACE OF MIND

Social security is a phrase prominent in public discussions these days, but the practice of it is not new. Consider the banks and their employees:

1. *Pension Funds*, to which, with their employees, banks themselves contribute substantially, make it possible for employees to devote all their business lives to banking, sure of an income for life when they reach the age of retirement.
2. *Annual vacations* with pay.
3. *Ordinary sick leave* with pay, and special sick leave arrangements in special cases.
4. *Group life insurance* contributed to jointly by banks and employees.
5. *Retiring allowances* and gratuities distinct from those provided for in the Government's unemployment insurance plan (although the banks also contribute fully to the latter).
6. *Good working conditions.*
7. *Unlimited opportunity* for enterprise and advancement.

Banks and their staffs, in co-operation with each other, have made it possible for the latter to enjoy a well-founded sense of permanency and security.
