Ceylon 18, Eugenia 8

LEAGUE GAMES THIS WEEK :—
Ceylon at Dundalk—Thursday
Rocklyn at Vandeleur—Friday
Eugenia at Rocklyn—Monday, July 4

The next game the local have will be on July 8, when Eugenia plays here.

We are sorry that Glenelg have been obliged to give up their end of the schedule in the Centre Grey League, but hope they will come in again next year with us and have better success. They were a fine bunch of fellows both on and off the field.

Ceylon journeyed to Eugenia on Saturday to play their postponed game, and when the smoke cleared away were at the head of an 18-8 score. It was an exciting game. A small fight was staged when a Eugenia player poked a Ceylon player in the neck, claiming he had been spiked. A home run was made when a Eugenia man hit a ball over third base and losing it in the tall grass.

Vandeleur went to Rocklyn on Saturday to play their scheduled game, but as Rocklyn had notified them by registered mail that the game was to be postponed, the game will stand as not being played, contrary to the umpire's ruling, who awarded the game to Vandeleur. It will be brought up at the next Executive meeting.

CHEVROLET

Why He Bought a Chevrolet

It cost him only $945, F.O.B. Flesherton, Ontario, equipped with electric starter and lighting, one man top of genuine fabrikoid, ventilating windshield, demountable rims, non-glare head lights, Stewart transmission-driven speedometer, Willard rubber threaded battery, oil gauge, four non-skid tires, tire carrier, complete tool equipment and valve-in-head motor.

The dealer proved to him its roading advantages over many cars of similar weight and its ease of operation. He knew from experience of others that with proper adjustment and the famous valve-in-head motor, his gasoline mileage will be equalled by very few cars.

A new tire would cost him only $16.50 and if he required parts for his motor at any time, he knew the dealer could give him direct service with the factory within twenty-four hours, should the necessary parts be out of stock. He knew the dealer in a town of the size of Flesherton had to carry a stock of parts at all times invoiced at approximately $2000, which would remedy 95 per cent. of his unavoidable replacements.

He knew his entire car, including the motor, was made in Canada, and in buying one of Canada's Standard cars he was aiding in re-establishing the exchange rate.

Should an accident occur to his car, he knew that Chevrolet service could be had anywhere, because in the season of 1920, the Chevrolet car had come to the fore so fast as to eclipse the record of any other firm on the point of production in Canada, and that behind this car was the strongest organization in the motor world, "General Motors."

He had only to look at the car to realize its beauty of construction and its sturdiness. Its baked enamel finish precluded any possibility of his car becoming shabby within a few weeks. He knew he was buying something "a little better" at the REMARKABLY LOW PRICE OF—

$945.00

He knew that at this price he was buying a car unequalled in power, construction, dependability, comfort design and endurance, by few cars anywhere near the price. A car after design of the larger models, not built down to a price, sacrificing quality, and therefore durability. For these and many other reasons he bought a Chevrolet.
