REQUEST EMPLOYERS AID

Through the services of the National Employment Office, Walkerton, 162 Army Personnel have been placed in employment as of November 30th, A. J. Schnurr, the Manager, reports. This is apart from reinstatements, of which the records show that 148 have returned to their previous employment within this district. At the present date there are 25 discharges registered for employment for whom jobs have not been secured as yet, and it is becoming evident that it will be increasingly more difficult to place these and others who will be registering daily as they receive their discharges. In an effort to provide employment for these, Officers of the Walkerton Employment Office ask that employers and citizens take a special active interest in this urgent matter and contact the office regarding any job opportunities they may have or know of so that these persons who have served us may not be deprived of their desire for a job.

Dad is home again!

Christmas candles will burn brighter this year and Christmas turkeys have a new and special flavour for the thousands of Canadians who will be sitting down to their first Christmas dinner with the family circle complete. And many a childish face will glow in the candlelight because "dad" takes his place at the head of the table again — with his strange tales from Italy, from France, Germany or the Pacific.

But even as the candles are lit and the heaped plates go round, Canadians will pause and remember — remember those family groups that will never be complete—those thousands of desolate and homeless in Europe — that great army of children who have been frightened and hurt and starved by a war not of their making.

Let us therefore make a solemn resolve never again to allow the powers of darkness — greed, selfishness and mistrust — to put out the candles of Christmas, those brave lights that symbolize the warm love and kindness that came into the world two thousand years ago.

CHRISTMAS is only a few days away. Long Distance calling will be heavier than ever this year. On long calls—especially to Western Canada, the Maritimes and remote United States centres—there are sure to be delays at Christmas time.

So if you plan to exchange greetings by Long Distance, *why not do so now?*

We will do our best whenever you call, but your chances for avoiding delays are better if you telephone some time this week.
